# Chapter 601: Heavenly Punishment

---

Everyone was left dumbstruck. They felt as if they had misheard Ye Xiwen. [Ye Xiwen has refused?!]

[Doesn't he know how dangerous the Devil World is?]

Even these experts of half-step Great Sage realm had formed a team since they couldn't dare to say with confidence that they would be perfectly safe in the Devil World. And, Ye Xiwen had refused to join them?!

Ye Xiwen's complexion was calm and composed... The Devil World was a very dangerous place. However, it was a big treasure trove as far as Ye Xiwen was concerned since he had Ye Mo and the Heavenly Source Mirror by his side. However, other people couldn't see this.

The 'evil way' of martial cultivation wasn't necessarily accepted by the masses. In fact, anything related to 'devil way' was openly frowned upon. Everyone would start to clamour like street mice to show their detestation for it.

Ye Xiwen didn't wish to be ostracized from the crowd.

However, Yang Wen Jun and Deng Shui Xin had already reached an agreement with Ye Xiwen that they would join some of their friends from the university, and wouldn't stay with him during the competition.

Gao Ling Xiu also looked at Ye Xiwen with a bit of surprise. She hadn't anticipated that he would refuse her offer. She had put forward this offer because she had wanted to rope-in Ye Xiwen. Ye Xiwen didn't get along with the Law Enforcement Hall. However, they weren't like the Law Enforcement Hall. And, they weren't afraid of the people of Law Enforcement Hall either. Therefore, Ye Xiwen's enmity with Law Enforcement Hall didn't bother them at all.

However, she stepped forward, and said, "We won't force you if that's the case. However, I'll still hope that brother Ye will join us after going there!"

The experts who were behind Gao Ling Xiu were somewhat dissatisfied with this statement of hers. After all, it seemed from this statement that she was giving too much importance to Ye Xiwen. [This Ye Xiwen is extremely arrogant. He didn't agree even though we have personally invited him.]

Ye Xiwen nodded. This request was completely justified in his opinion. After all, he would possess the fighting prowess of Great Sage level if he summoned the star colossus avatar. So, he was naturally qualified to take care of her.

The fighting prowess of the star colossus avatar had also made a breakthrough into intermediate stage of Great Sage realm from the initial stage of Great Sage realm. This increment in strength had naturally boosted Ye Xiwen's confidence.

However, the experts in Gao Ling Xiu's clique believed this to be proof of Ye Xiwen's arrogance.

Sound of breaking of space unceasingly came from the sky while Ye Xiwen and the others waited here. Then, a series of flying lights broke through the horizon...

An increasing number of experts appeared in the sky one after another. Each one of them was a powerhouse of sage realm. After all, they wouldn't have participated in this time's Devil World Competition if they didn't believe that they had enough strength. And, that's because a place like the Devil World was very dangerous. However, the people with powerful strength didn't care about life or death. Therefore, only those people who had very much confidence in themselves had arrived.

These people who had cultivated till this degree were naturally very lucky without any exception. They must be much more tyrannical than those 'random cultivators with no background'

sage experts whom Ye Xiwen had seen earlier. Those random cultivators didn't even have any heritage. They used to cultivate depending merely upon their own adventures.

The experts that had arrived here would be considered as elites of sage realm if each of them had been placed in the outside world. Each of them could hog up a big chunk of land.

Ye Xiwen still hadn't seen the true background of the True Martial University. However, he had already gotten a rough idea about it by looking at these people.

Ye Xiwen hadn't even pondered any further when a group of people descended from sky while treading the flying lights. However, they hadn't come for Ye Xiwen. They had instead come for Gao Ling Xiu who was beside him.

They were headed by a youth who looked about 30-years-old. He looked handsome, majestic, and awe-inspiring. His every movement gave off a feeling clashing metals!

Ye Xiwen shot a glance at him... He was shocked to find that this man had already entered the late stage of half-step Great Sage realm. Moreover, he was the kind of expert who had profound martial power. In other words, he was just a small step away from the Great Sage realm.

Gao Ling Xiu's voice entered into Ye Xiwen's ears while he was wondering who this man was. "This man is Bi Jing Wei. He has an outstanding reputation among the core disciples. He is a peak cultivator among the core disciples. He is very straightforward. He is worth making friends with!"

Gao Ling Xiu knew that Ye Xiwen's cultivation was profound. However, his cultivation time was very short. So, he perhaps didn't know much about this outstanding character among the core disciples. Therefore, she introduced this man to Ye Xiwen.

"Sister Gao!" Bi Jing Wei came straight over to Gao Ling Xiu. He

didn't look towards Ye Xiwen. In fact, it seemed as if he hadn't even noticed Ye Xiwen.

"I haven't seen Brother Bi in many years. You're just one step away from the Great Sage realm now. So, you'll perhaps make the breakthrough within a few years!" Gao Ling Xiu smiled and said. She had laid bare the secrets.

Ye Xiwen secretly said, [Gao Ling Xiu isn't ordinary. After all, it should be impossible for her to see through Bi Jing Wei's cultivation as per her current strength of Sage Accomplished realm.]

"Sister Gao is still as sharp as ever. Anyway, there's no comparison between me and you. Your future prospects are limitless!" Bi Jing Wei was looking at Gao Ling Xiu with a slightly envious look in his eyes.

"I'll come straight to the point. I've arrived looking for Sister Gao because I want to ask whether Sister Gao is interested in collaborating this time. Those bastards of Xuan Yuan Palace Hall had joined with a few other forces during the last Devil World Competition. They had then used underhanded techniques against the experts of our university, and annihilated them. I've planned to pay them back this time. I'll get rid of those experts of Xuan Yuan Palace Hall!" Bi Jing Wei's face exposed vigorous anger as he said. He looked ferocious and aggressive.

The True Martial University had once dominated the southern region. And, there was a possibility that it could revive once again. Therefore, it often used to face combined attacks in such competitions, and had often suffered disastrous losses therein.

Bai Jian Song had mentioned these things to Ye Xiwen. Therefore, Ye Xiwen also knew about it.

The top experts of the True Martial University could similarly take advantage of this opportunity, and kill the experts of the other forces. After all, the people of the other forces were a bigger

threat than those experts of devil race inside the Devil World.

Bi Jing Wei hadn't been as powerful as he was now at the time of the last Devil World Competition... He had already reached to the peak this time. In fact, he might enter Great Sage realm before the next Devil World Competition. Therefore, he couldn't miss this opportunity, and must make the most of it.

Several disciples realized this thing as he said this. Everyone seemed to be brimming with anger.

Gao Ling Xiu also understood everything as she heard this. However, she immediately turned towards Ye Xiwen, and asked, "I don't know whether brother Ye is interested or not?"

Everyone looked at Ye Xiwen... The experts behind Bi Jing Wei in particular looked at him somewhat curiously. [Who is this man? Why is Gao Ling Xiu giving so much importance to him?]

Gao Ling Xiu was merely at the Sage Accomplished realm. However, it was obvious that she held an extremely high status among these people. They clearly didn't weigh her on the basis of realm.

"Sister Gao, who is this man?" Bi Jing Wei looked towards Ye Xiwen.

"Let me introduce him to you. This is Ye Xiwen. Brother Ye is the one who has defeated Law Enforcement Hall's Cao Yuyu!" Gao Ling Xiu replied.

Everyone was left in shock. [It's not surprising that Gao Ling Xiu is giving so much importance to this Ye Xiwen. This must be the reason for that.]

Ye Xiwen, Yang Wen Jun, and Deng Shui Xin had become the centre of attraction among this crowd of half-step Great Sage experts.

Thinking about it... It was expected!

However, everyone became even more curious after they came to know Ye Xiwen's level. How had a Sage Great Perfection level expert managed to defeat Cao Yuyu? After all, the latter had already entered half-step Great Sage realm at that time... However, they didn't know that Ye Xiwen had been a mere Sage Small Perfection level expert at that time. Otherwise, they would've been even more astonished.

However, they still felt that Gao Ling Xiu was giving too much importance to Ye Xiwen. He had surely defeated Cao Yuyu. But, Cao Yuyu had been the weakest among these half-step Great Sage experts. He could at most have been at the same level. Anyway, Gao Ling Xiu didn't need to ask for their opinion.

"So it's Brother Ye... It seems that Brother Ye has become very popular these days!" Bi Jing Wei smiled, and said. His attitude was very kind and friendly. He didn't ignore Ye Xiwen just because he was a sage expert. Therefore, Ye Xiwen formed a good opinion of this man because of this.

"The younger generation will surpass us in time. Our university needs several talents like you to emerge out in large numbers to ensure that it can thrive and become powerful. I can only participate in this time's Devil World Competition. After that, I'll be rooting for you all!" There was an expression of sincerity in Bi Jing Wei's eyes. It was obvious that these weren't empty words... He truly thought so.

Ye Xiwen secretly thought, [There are a very few people like Bi Jing Wei. It's not surprising that Gao Ling Xiu had said 'he's worth making friends with'.]

"Not at all!" Ye Xiwen's face also exposed a humble smile. "Our university will definitely revive if everyone in the university becomes loyal and devoted like Brother Bi!"

"I don't know whether Brother Ye is interested in joining our group. Our chances will certainly increase enormously if Brother

Ye joins us!" Bi Jing Wei invited Ye Xiwen.

Ye Xiwen also knew that such a matter would increase his weightage in front of the high-level experts. Therefore, he thought for a while, and then nodded. "Just send a summon signal for me when you guys are about to start your attack on the other forces. I'll rush over no matter where I am!"

"Excellent! That's reassuring!" Bi Jing Wei smiled, and said. "Then, I'll take my leave now. I must go, and meet other people!"

Bi Jing Wei was about to walk away. But then, he suddenly turned towards Ye Xiwen, and said, "Brother Ye, I've heard that the Heavenly Punishment Faction of Law Enforcement Hall is also participating. I hope you'll be careful and prepared in advance!"

Everyone was stunned by this. All of them looked towards Ye Xiwen with a bit of pity in their eyes. After all, how could a person have a good ending if they were being targeted by the Heavenly Punishment Faction?

Ye Xiwen was somewhat stunned. [The Heavenly Punishment Faction is also participating this time?!]

Ye Xiwen also knew a bit about the Heavenly Punishment Faction. This was an elite faction of the Law Enforcement Hall. Every member of this faction was an elite member in the Law Enforcement Hall. The majority of its members were at the late stage of half-step Great Sage realm. And, the leader of this faction was a Great Sage expert. The Heavenly Punishment Faction would usually be out chasing and killing traitors who had flown away. Or, they would be involved in some other secret missions. However, they didn't participate in such competitions. Therefore, Ye Xiwen hadn't expected that they would participate this time.

[Could it be that it's coming for me?]

Ye Xiwen instinctively thought of this point at once. In fact, this was very probable. And, he must be careful if it was so. All the

members of Heavenly Punishment Faction were elites. And, every individual was difficult to deal with.

# Chapter 602: Enters Devil World

---

There was a so-called saying 'It's better to provoke the King of Hell than to incur the heavenly punishment'.

These martial practitioners often used to wander between life and death. So, they knew the means to save their lives. However, it would be a dead end for them if they provoked the Heavenly Punishment Faction.

Of course, the Heavenly Punishment Faction wouldn't move into action under normal circumstances... They wouldn't do so as long as one didn't betray the university!

There was no clear information on the basis of which one could say that they were directed against Ye Xiwen. Anyway, the fact that the Heavenly Punishment Faction had set out wasn't good news for Ye Xiwen since he was an enemy of Law Enforcement Hall.

Initially, the people that had arrived with Gao Ling Xiu were thinking that Ye Xiwen had been given too much importance by her. However, they were now looking at him with a trace of pity in their eyes. [Ye Xiwen has provoked the Heavenly Punishment Faction... He won't have an easy time in the future.]

However, Ye Xiwen didn't care too much about it. He would summon the star colossus avatar in the critical situation to blast the enemy away. Even the Heavenly Punishment Faction wouldn't be able to do anything about that. They would look insignificant in the face of his tyrannical strength.

The time allotted for the experts to gather here had passed very quickly. The entire Ying Xin City was filled with sage experts who would participate in this time's Devil World Competition. It could be said with confidence that the experts present here were in abundance.

More than a dozen figures cut through the vast sky, and arrived after all the experts had arrived here. Each one of them possessed incomparably formidable aura. All of them were Great Sages! They were headed by a man who was none other than the Old City Lord of Ying Xin City whom Ye Xiwen had seen earlier.

Ye Xiwen had seen the Ying Xin City's Lord after a few decades. However, the City Lord still looked as unfathomable as before. Even looking at him forever would be insufficient. Nobody knew about his origins. In fact, nobody knew since how long he had been the Lord of the Ying Xin City. They just knew that he used to appear every time the Ying Xin City opened.

"Silence!" the Old City Lord's powerful voice silenced all the experts who were present here. All of these people possessed super strength and were untamed. However, they didn't dare to act presumptuously in front of these Great Sages.

"The Devil World Competition is going to take place once again. I don't need to explain how important it is for our university!" the Old City Lord faintly said, "Your leaders must have already told you everything. Therefore, I won't say much. I just hope you'll give a good performance, and establish great merit!"

The Old City Lord brandished his hand, and golden lights filled the surrounding. Then, those golden lights fell into everyone's body like a rain of light.

Ye Xiwen could feel the golden light had fallen inside his body, and gotten concealed therein.

"These golden lights will record the number of devils that you kill. Then, that number will be converted into points which will appear on the merit list. You'll get 1 point for killing a semi-sage devil expert. You'll get 10 points for killing a devil expert of initial stage of sage realm. Killing an expert of intermediate stage of sage realm will get you 20 points. 30 points for killing an expert of late stage of sage realm... 40 points for killing an expert of sage realm

peak... 50 points for Sage Small Perfection level expert... 60 points for Sage Great Perfection level expert... 100 points for Sage Accomplished level expert... 1000 points for an expert of initial stage of half-step Great Sage realm... 3000 points for an expert of intermediate stage of half-step Great Sage realm... 5000 points for an expert of late stage of half-step Great Sage realm. And, the reward will be 10,000 points if you kill a Great Sage!" the Old City Lord explained in his sonorous and powerful voice.

Ye Xiwen got immersed into his mind after he heard this. He found a merit list in the depths of his consciousness. The list was still blank... No one's name had appeared on it yet. The names of the people of other forces wouldn't appear along with them on this list. However, their achievements and ranking would appear in the list. Therefore, it would become obvious who was strong and who was weak after having a glance at this list.

Divine beams flickered on the Old City Lord's hands after he was done talking. He then ripped apart a huge crack in the sky with his hands. The crack was ten-thousand feet wide and more than a hundred-thousand feet long! Devil wind was howling inside the crack, and blowing out from inside it.

The gas that had proliferated from inside the crack made everyone feel uncomfortable. It was the devil gas which was present inside the Devil World. Only Ye Xiwen wasn't feeling uncomfortable. The entire devil gas that entered Ye Xiwen's body had been absorbed by the Heavenly Source Mirror, and transformed into devil energy which supplemented Ye Xiwen's energy requirements.

He could also make the mysterious space absorb it. It could be said that the devil energy was no big deal for Ye Xiwen. However, the same couldn't be said for the other people.

The devil race was the only species who could adapt to the devil energy. Even the fiercest demon beasts apart from that of the devil race couldn't endure direct exposure to the devil energy.

"Ye Xiwen, the Old City Lord possesses incomparably profound martial power!" Ye Mo suddenly said. "He has effortlessly torn open a passage that leads to the Devil World. Such cultivation is shocking!"

Ye Xiwen nodded. He might not be able to tear open such a passage even with the star colossus avatar's assistance. In fact, it was simply impossible for him.

Moreover, the power of the space principle was second only to the power of the great principle of time. An ordinary person could break the space of the weakest region. However, that would merely happen for a split second. Afterwards, the space would be restored by the space principle.

The cultivation of a person that could open such a crack for such a long time would be enough to scare a person to death.

Ye Xiwen could see the mountains and rivers inside the Devil World through that huge crack. This scene was similar to what he had seen in the microcosm of Yi Yuan School which had been formed from the fragments of Devil World. There were boundless black clouds and howling and billowing winds. Terrifying energies were boiling therein. This was the Devil World!

Even the old experts who had participated many times in the Devil World Competition became scared as they saw this scene. Only the people who had formed a team could survive in such a dangerous place.

Ye Xiwen sniffed the fatal aura that was coming out from inside the crack. The Devil World Competition had turned out to be a huge test every time.

Ye Mo was somewhat eager to give it a try. After all, the Devil World was his home. It could be said that he would be back in his home once Ye Xiwen had entered the Devil World. Ye Mo could obviously display far more power in the Devil World.

"Go!"

Countless sage experts flew inside the Devil World. It was a spectacular scene! Each one of them soared to the sky... It seemed as if they had been swept up by a tyrannical energy column. Each of them transformed into a streamer of light, and went inside.

No one was left by Ye Xiwen's side at this time. Yang Wen Jun and Deng Shui Xin had already left to find the team that they had previously agreed to go with. Gao Ling Xiu had also crashed into the passage along with the other people.

"Let's go!" Ye Xiwen said. And, a pair of golden wings unfolded behind his body. He then transformed into a golden light, and burst into the passage.

Ye Xiwen had just entered the passage when he felt boundless devil energy blowing against his face. He saw devil clouds surging about as far as he could see... Countless devils were hidden inside these devil clouds.

"Fu fu... These stupid humans have arrived to throw away their lives as expected!"

"This is a banquet of blood and flesh. Each of these individuals is elite among the humans. Therefore, they possess extremely exuberant vitality. Our cultivation will advance enormously after we've swallowed them alive. We may also reach up to the Great Sage realm if we manage to swallow a bunch of them!"

Ye Xiwen's expression turned cold. He hadn't expected that he would come across an ambush immediately after he entered the Devil World. However, the individuals in the Devil World weren't idiots. They knew that the experts of True Martial World would enter the Devil World in order to kill them. So, they had taken advantage of this opportunity, and set up an ambush in order to eliminate all these people in one fell swoop.

The sage experts who had just entered the Devil World began to

attack one after another in order to deal with these devils.

Ye Xiwen looked around. These devils were large in number. Fortunately, there wasn't any extremely tyrannical devil expert to assume personal command among them. Otherwise, the True Martial University's experts might've suffered heavy losses.

"These devils are very cunning!" Ye Xiwen coldly snorted. Hundreds of semi-sage devils had already arrived in front of him. These devils were common in the Devil World.

A semi sage expert couldn't be considered as a nonentity in the True Martial World. They also had an appropriate position. However, a semi-sage expert was nothing inside these ambushing forces of the Devil World. They were simply servants of the lowest rank. The Devil World's strength was evident from this point. According to Ye Mo... the Devil World had an outstanding reputation in the past. It was among the few famous macrocosms. It was simply impossible for the True Martial World to contend against the Devil World. The True Martial World wouldn't have been able to stop the Devil World if it had revealed its real strength. Both worlds were simply not on the same level.

Ye Xiwen stretched out his hand to grasp. It exploded into endless rays of light in the sky. Those rays of light then formed a huge net, and grabbed those hundreds of devils.

The experts of devil race that came in contact with those rays of light screamed one after another. They got exploded, and transformed into blood fog. Thereafter, they got absorbed by the Heavenly Source Mirror.

The Heavenly Source Mirror emitted bursts of scarlet light from inside Ye Xiwen's body. It could be said that the blood essence present inside these devils was a big supplement for the Heavenly Source Mirror.

"Ha ha... The blood essence of the devils is the biggest supplement. There will be no need to look for a Great Sage tool if it

continues like this. The Heavenly Source Mirror itself can evolve, and become a Great Sage tool!" Ye Mo laughed wildly and said. The natural instincts of the devils made them suppressed in front of Ye Xiwen.

The devil energy present inside these devils' bodies was transformed into 'spirit energies', and this was then absorbed by Ye Xiwen. This immediately replenished Ye Xiwen's used up 'Real Elemental Energy'.

No one in the Devil World could absorb the devil energy from the atmosphere... apart from the devils or those people of Devil Worship Cult who had cultivated Devil Cultivation Methods. It could be said that one's own 'Real Elemental Energy' wasn't enough in a place like this... It was necessary to have a lot of 'Primary Spirit Dans' or other such heavenly treasures that could replenish one's 'Real Elemental Energy'. Otherwise, one would die in the Devil World because of shortage of 'Real Elemental Energy'.

Therefore, no one dared to use their 'Real Elemental Energy' extravagantly inside the Devil World. They couldn't use it freely here like they used to do everywhere else. Basically, they must use it as less as possible. However, Ye Xiwen had a big advantage in this aspect... After all, he could spend his Real Elemental Energy without any hesitation. So, he wouldn't die because of exhaustion of Real Elemental Energy like other people.

Ye Xiwen looked as far as his eyes could see. He saw thousands and thousands of disciples of True Martial University attacking the devils. Sounds of shouting and killing reverberated everywhere. These people also deserved to be called as elites in the True Martial University. They were facing experts of devil race that were twice as many as them, but were still fighting them with all of their strength.

Ye Xiwen looked at the merit list. He found that his name was at the bottom behind 50,000 names. He had obtained only 100 points till now. He could only be considered at the bottom of the bottom.

He then shot a glance at the top of the list. He saw that someone had obtained 3000 points. Moreover, the disciples of the True Martial University weren't the only ones present there. The experts of the various forces had scattered in different areas in the Devil World. However, an intense collision between them was imminent.

# Chapter 603: Kills in All Directions

---

All these people were the elites among the elites of various forces. And, these elites were slaughtering at a very fast speed! The experts of devil race had cleverly planned an ambush in order to catch the disciples of the True Martial University off-guard. However, they hadn't been able to withstand them for a long time, and had soon been forced to retreat little by little in defeat.

The experts of the True Martial University attacked one after another... A large group of devils got defeated in the first attack. Ye Xiwen could see that the scores on the merit list were increasing frantically.

Ye Xiwen obviously couldn't just sit back and watch other people fighting and killing. So, he also went all-out. However, he hadn't killed much when those devils who had been running rampant just a moment ago got wiped out completely... Not a single one was left!

Ye Xiwen had obtained merely around 200 points in the first round of the clash. That's because the ones that he had killed were merely the unorganized semi-sage devils. However, he was in no hurry. [This is just the beginning. I'll let the others run rampant. I'll just get hold of a Great Sage level devil, and kill him to leave everyone in the dust.]

There had been a huge crowd at the entrance of the Devil World not too long ago. However, there wasn't anyone here now. Most of the experts had already flown towards the depths of this world.

Ye Xiwen's face exposed a trace of smile... After all, this place was his home ground!

Ye Xiwen flew into the sky of the Devil World. He felt as if a sword was scraping off his body as bursts of devil wind brushed against him. The fact was that the astral wind of the True Martial World was nothing in comparison to the devil wind of the Devil

World... The astral wind was just like a breeze in comparison. They were entirely different!

The living environment of the Devil World was very nasty. Therefore, its inhabitants — the devil — were far more sturdy than the humans.

"Human!" A big hand suddenly swept over from the sky! The claw immediately grabbed and smashed the void! It seemed as if it would definitely grab and kill Ye Xiwen. It was clear from the aura being emitted from this big hand that it was a devil beast of Sage Accomplished realm. It had been hiding inside the devil clouds, and had planned to kill Ye Xiwen with a single fatal blow.

However, Ye Xiwen didn't even look at it... Endless rays of light emitted from his palms, and proliferated in the surroundings in an instant! The entire sky suddenly got illuminated by these rays of light. Then, the devil clouds burst open, and a devil beast screamed as it got killed. It couldn't even injure Ye Xiwen!

Then, its blood essence got entirely absorbed by the Heavenly Source Mirror. Consequently, Ye Xiwen could feel that the Heavenly Source Mirror had become a bit stronger once again.

He had killed this beast... However, it didn't mean that other devil beasts wouldn't attack him. On the contrary, an increasing number of beasts appeared in the surroundings.

They weren't real devils. Instead, they were the devil beasts that had just been living inside the Devil World. They were locally born and bred in the Devil World. They were similar to the demon beasts born in the True Martial World. It was just that these beasts used to feed on the devil energy.

The real members of devil race were as civilized as humans. They even had their own countries and cities... Moreover, they also had a devil army. They were very dreadful. The devil beasts here were nothing in comparison to them... The humans had the dominance in the True Martial World. Similarly, the devil race dominated the

Devil World.

Ye Mo had already made Ye Xiwen aware of these things. Ye Mo was an old monster whose age couldn't be predicted. It could be said that he knew these things inside-out.

Several demon beasts of sage realm had already gathered in the surroundings. They had been attracted by the fluctuations caused by the battle at this place. Their speed was extremely quick. It was far beyond the imagination of an ordinary person. They were several times more dangerous than the demon beasts present in the True Martial World.

These demon beasts were just ordinary beasts of sage realm, and one couldn't get too many points by killing them. However, they were huge in quantity. So, it was much easier to find them as compared to the devil beasts of half-step Great Sage realm.

"Inverting Ocean Seal!" Ye Xiwen formed a hand seal. Then, the Inverting Ocean Seal surged through the sky, and overwhelmingly fell down in torrents! Those devil beasts who had been approaching whilst issuing bizarre screams couldn't resist such an attack. They immediately got annihilated, and reduced to bits.

After that, Ye Xiwen once again checked his points. He found that he had suddenly gained several hundred points. Consequently, his ranking had also increased all of a sudden... It had reached the ten-thousands. However, it was still useless as more than ten-thousand people were still ahead of him, and more than hundred-thousand people were chasing him. Moreover, he would slide down hundreds and hundreds of names if he showed even a bit of laziness.

However, he still wasn't in a hurry. It was just that this was the most intense time. There wouldn't be so much chaos once the rankings got stabilized.

"Those devils are very dangerous. However, this naturally applies only to the other people. They are simply nothing for you!" Ye Mo

said. "The Heavenly Source Mirror itself is the divine tool of the devil race's great monarch. So, it's naturally a bane for those of devil race. In fact, you're the next generation king of the devil race as long as you have the Heavenly Source Mirror. And, they're just like your slaves!"

Ye Mo was very excited after having returned to the Devil World. The devils were just like a group of slaves for him. They were simply nothing!

Ye Xiwen nodded... It wasn't wrong to say that the Devil World was like his home ground. After all, the Heavenly Source Mirror could restrain the powers of the devils. He could currently contend against an expert of intermediate stage of half-step Great Sage realm among the human experts if he pushed it. However, he didn't need to be worried even if he came across an expert of late stage of half-step Great Sage realm as far as the experts of the devil race were concerned.

Ye Xiwen continued to fly into the depths of the Devil World whilst slaughtering. The more he penetrated into the depths of the Devil World, the more devil experts he came across; and, the more wantonly he killed. He had killed dozens or even hundreds of semi-sage experts of devil race so far!

"These areas should be the outskirts of the Devil World... Many tyrannical devil beasts are lurking here. Even the experts of devil race may not be too willing to come to this kind of place. Generally, only the juniors of the devil race come here to hone their skills. It's true that many tyrannical devil beasts are lurking here. However, they aren't concentrated enough to be worried about. You must catch up with those people. Killing devil beasts isn't beneficial!" Ye Mo suggested. After all, Devil World was his place. It was like he had come back to his home after he had come to the Devil World.

Ye Xiwen flew further into the depths whilst Ye Mo spoke. Ye Xiwen didn't need to conceal the devil energy within his devil

wings this time... He found that his speed had increased by one-third after the cloak of his divinities got removed from his wings.

His devil wings were giving a great performance in the Devil World... So, it could be said that they too had returned to their home. Some of the movements that had been quite difficult to make in the True Martial World had become very easy here.

Suddenly, a group of great devil soldiers arrived from afar whilst flapping their bat-wings behind their bodies. Their eyes shone as they saw Ye Xiwen coming from the front... A blood-light flashed in their eyes! It seemed as if they considered Ye Xiwen as a blood and flesh cuisine!

Ye Xiwen saw that these great devil soldiers had worn armors, and were holding iron spears in their hands. They looked like trained soldiers. Each one of them was a powerful great devil of sage realm. They were headed by a young leader who turned out to be an expert of initial stage of half-step Great Sage realm.

They weren't like those scattered devil beasts on the outskirts.

Ye Xiwen recalled what Ye Mo had told him earlier... This great devil clan was also one of the eight noble clans of the devil race. Their population was huge; it was the largest among the eight noble clans. People would visualize them whenever they thought of the devil race.

The great devils had a huge population. So, they were often used as the main force as well as cannon fodder among all the devil armies of devil race that went on expedition in other worlds. Consequently, every world had legends about the great devils.

These great devil soldiers were just patrolling. However, they were already at the sage realm. After all, experts below sage realm didn't have any status in the Devil World. They were just considered as commoners and slaves.

Ye Xiwen hadn't thought much when those great devil soldiers

suddenly attacked him. All of them were well-trained soldiers. So, they were moving in a battle formation. They were merely at the sage realm. However, they could display the fighting prowess of half-step Great Sage level if they fought together. Therefore, people didn't underestimate them.

The young squad leader of these great devils rushed straight over. Then, his claws swept out in rhythm. This was an incredible martial art. He was just a patrol leader in the devil army. However, he would be considered as an elite if placed in the True Martial World. In fact, he could even be ranked among the core disciples.

"You're a courageous human. You're just at the Sage Great Perfection realm... But, you've still dared to penetrate deep into the Devil World. Fu Fu... You don't know the profoundness of the world... You can only become my meal!" That great devil squad leader looked exceptionally sinister as he opened his mouth wide like a sacrificial bowl.

Those great devil soldiers also arrived fluttering their wings bat-wings behind him. They were moving in accordance with their leader, and had a very good coordination with him. They spread across like a huge net, and advanced towards Ye Xiwen to capture him.

Ye Xiwen sneered, [These great devil soldiers are treating me as an ordinary expert. They've dared to jump in front of me?! They're courting death!]

Ye Xiwen's big hand suddenly stretched out with the vigor of a dragon and the ferocity of a tiger! It was the Control Crane Seven Divine Hands! The people of the Law Enforcement Hall might've been scared to death if they had seen it. After all, this was Mu Sheng Jie's technique. And, it had appeared in Ye Xiwen's hand now.

Ye Xiwen obviously wasn't as proficient in this technique as Mu Sheng Jie was. In fact, there might even be some flaws in his

technique. However, this didn't stop him from using the Control Crane Seven Divine Hands on that young great devil leader.

"Bang!"

"Bang!"

"Bang!"

Ye Xiwen and the great devil leader exchanged hundred blows in an instant.

"Ah!" the young great devil leader screamed as both of his hands got exploded and transformed into a mass of blood fog. Then, that blood fog got absorbed by the Heavenly Source Mirror.

"How is this possible? You're just a human..." The eyes of the young great devil leader opened wide. He looked at Ye Xiwen incredulously. He couldn't believe this! The great devil clan wasn't known for their physiques. And, they couldn't even be compared with the people of Asura Clan who had tank-like bodies. However, their bodies must still be much stronger than those of the human experts.

It wasn't that the young great devil leader hadn't killed any outstanding human experts. He had killed a few senior human experts in the previous Devil World Competition. And, his martial power had increased significantly after he had swallowed their blood essence. He had then smoothly made the breakthrough into half-step Great Sage realm. He had gotten to know the benefits of harvesting human experts. Therefore, he had hurriedly carried his soldiers, and arrived to intercept the human experts after the Devil World Competition had started this time. He had thought that he could once again reap big benefits. However, who could've imagined that he would come across Ye Xiwen... a God of Death!

Ye Xiwen sneered, and suddenly attacked once again with the Control Crane Seven Divine Hands.

"Bang!" the young great devil leader screamed as he got slapped to

death. The Heavenly Source Mirror emitted bursts of scarlet lustre from inside Ye Xiwen's body. The vitality of that young great devil leader got absorbed, and left nothing behind. It then transformed into the 'Real Elemental Energy'; this was the primary source of Ye Xiwen's energy. Finally, the 'Real Elemental energy' entered into Ye Xiwen's body, and got assimilated by him.

And, his blood essence got entirely absorbed by the Heavenly Source Mirror.

## Chapter 604: Magic Crystal Ore Deposits; Become Rich Overnight!

---

The Great Devil Squad Leader's idea of taking cheap advantage wasn't wrong. After all, it would've been a dead end for an ordinary expert of Sage Great Perfection realm if they had come across him. They wouldn't have had any chance of survival. However, he had unfortunately messed with a freak like Ye Xiwen... He didn't have the power to fight back in front of Ye Xiwen even though he was an expert of initial stage of half-step Great Sage realm.

He wouldn't have been a match for Ye Xiwen even if Ye Xiwen hadn't made the breakthrough a year ago; let alone now when Ye Xiwen had already made the breakthrough.

It became impossible for those other great devil soldiers to contend against Ye Xiwen after their young leader got killed. All of them got killed by Ye Xiwen in a moment's effort. It was simply impossible for them to be a match for him.

Ye Xiwen came across a few more squads soon after that; such squads were commonly seen in the Devil World. The True Martial World considered this Devil World Competition as an opportunity to hone their disciples. So, how could the devil race not have thought so as well; especially when many devils had tasted success in previous trials? The martial power of these devils would skyrocket after they devoured these elite human experts.

Therefore, many devils had responded instantly. They didn't even need to be summoned. They had arrived one after another of their own accord.

However, they had unfortunately become Ye Xiwen's supplement now... Ye Xiwen had the assistance of the Heavenly Source Mirror. So, these devils could only become his slaves. Ye Xiwen could obtain whatever he wanted from them. This would save Ye Xiwen

the penance of innumerable years of cultivation.

Ye Xiwen had killed a few devils of half-step Great Sage realm, and absorbed the devil energy of their bodies. Consequently, his slightly-unstable cultivation of Sage Great Perfection realm had become stable. Other people feared the devil energy; they tried to avoid it. However, it was like a tonic for Ye Xiwen.

Naturally, the deeper he penetrated into the Devil World, the more powerful devils he came across. Several days passed. Ye Xiwen finally came across the people of other forces; they were also experts like him. There would be no problem if one met the experts of other forces with whom they had a friendly relation. However, a fight would break out on the spot if the relation between them wasn't good. After all, it didn't matter who died in this place since the high-level experts wouldn't investigate about it.

The high-level experts of every big force hoped that their disciples could display invincible might, and establish great prestige of their respective forces. However, they had also mutually agreed that they wouldn't inquire about the life or death of the participants in this trial.

There weren't many forces that had good relations with the True Martial University. In fact, the majority of them were sworn enemies of the True Martial University. It wasn't known how many predecessors had died on both sides during the decline of the True Martial University. So, it could be said that their enmity was as deep as the ocean.

Some people didn't have good eyes... After all, they had set out towards Ye Xiwen. They considered him just an ordinary expert of Sage Great Perfection realm. Therefore, they had collaborated to deal with him. However, Ye Xiwen wasn't merciful either. So, anyone who attacked him got slaughtered.

The ranking on the merit list had become stable along with the

passage of time... The top 100 positions belonged to the powerful experts of the late stage of half-step Great Sage realm. The top 50 positions belonged to the well-known figures among those experts. And, the top 20 positions belonged to those experts who had the reputation of being able to escape from the hands of experts of initial stage of Great Sage realm.

One could make out the strong and weak people from the merit list. It mightn't be accurate. But, those who had acquired the top 100 positions were undoubtedly extremely tyrannical people.

Ye Xiwen had killed for several days, and he could also be considered as hardworking. However, the rankings showed that he was extremely far from others. He wasn't even ranked among the top 1000 people; he had merely broken into the top 10,000 people. He was presently a nonentity in this competition.

The sky turned dark on Ye Xiwen's fifth day in the Devil World... Strange yelling sounds came from the black clouds. The sound was ear-piercing sharp.

One could tell that they were calf-sized owls by taking a closer look. These owls were considered as a weak devil species in other worlds. However, each one of them had a cultivation of semi-sage level in the Devil World. In fact, there were also many sage level owls among them; these sage level owls were leading the group.

It would've been a dead end for even a top-notch expert of late stage of half-step Great Sage realm if they had come across such a massive flock of owls. In fact, they wouldn't have dared to mess with them. However, this wasn't because these owls were extremely powerful. Instead, it was because their number was way too much... They were simply endless.

However, a figure was shuttling inside this group of owls, and a golden light was flashing again and again... A large chunk of owls got killed by this golden light every time it flashed.

Ye Xiwen's expression was solemn and stern. And, his hand was

moving continuously... He unceasingly bombarded all kinds of martial arts techniques on a whim. It could be said that he was casually butchering them. In fact, it had become impossible for those owls to approach Ye Xiwen's body. They couldn't even reach close to his body, and got killed by the divinities that were protecting it.

Everything that was related to the devils was born from the darkest, most sinister, and most negative Yin energy of the world. However, Ye Xiwen's divinities had been extracted from the descendants of gods. Therefore, these divinities were the brightest, most honest, and most positive Yang energy. These divinities were simply a bane for these devils. Moreover, their cultivation level was far more inferior to that of Ye Xiwen. Therefore, it was impossible for them to even approach his body.

The flesh of these owls got absorbed by the Heavenly Source Mirror after they got killed by Ye Xiwen. Ye Xiwen could feel that the Heavenly Source Mirror wasn't far from making a breakthrough... It differed by just a foot from becoming a Great Sage tool.

However, this separation of one foot in Heavenly Source Mirror's promotion was as massive as a moat before one's eyes. Still, this was good enough. After all, an ordinary sage tool usually didn't get an opportunity to evolve into a Great Sage tool. This was why even some Great Sages were still using sage tools.

Ye Xiwen simply didn't give importance to these owls even though many experts feared them. He had been killing them casually. He could instantly absorb this rich devil energy at any time to replenish his Real Elemental Energy. Therefore, it was impossible to think that he would die because of exhausting his Real Elemental Energy. So, it could be said that the thing that other people were avoiding was simply nothing for him.

In fact, he was taking advantage of these owls to hone his martial arts since they couldn't injure him.

Ye Xiwen reduced the myriads of owls into a small group in a day's time. One couldn't make out from afar, but he had indeed killed a terrifying number of owls.

Countless sage experts were unceasingly flying across at a distant place. They were streaking across the sky just like a group of lights. It was the Devil World. However, how could Ye Xiwen not have become excited when he looked at these experts? These people must be more dangerous than the devils.

"Where are these people going?" Ye Xiwen became somewhat curious after he noticed that all these experts were flying in the same direction.

Therefore, he decided to end using these owls to train, and quickly followed them. He then saw that several hundred experts had gathered in a mountain range.

The voices of several experts came from the surrounding.

"Does this place truly have Magic Crystal Ore Deposits?"

"This news can't be fake. It has already created a big commotion. It's not clear how many experts have already arrived here!"

"Haha... then it's awesome. We'll become very rich if we can obtain just one Magic Crystal Ore Deposit. After all, we can convert it into Spirit Stone Ore Deposits after we return. We can become rich in one fell swoop if we obtain even one such ore!"

"Yeah! Half of it may get acquired by the university after conversion. However, the rest would be ours, and that would also be a big profit. Where can one get such a good opportunity in the True Martial World? After all, all those Spirit Stone Ore Deposits have already been divided by the big forces amongst themselves. So, there's no way that we're going to obtain them..."

Ye Xiwen was startled. [So, they've arrived here for the Magic Crystal Ore Deposits.] Ordinary martial cultivators depended on spirit stones in the True Martial World. And, the spirit stones were

usually extracted from the Spirit Stone Ore Deposits.

The cultivators of devil race In the Devil World were dependent upon the Magic Crystals for their cultivation. And, these Magic Crystals were extracted from the Magic Crystal Ore Deposits. These Magic Crystals could also be converted into spirit stones with the help of some methods... just like Ye Xiwen could convert the devil energy with the help of Heavenly Source Mirror. In fact, every big force had similar methods for converting Magic Crystals into spirit stones. It was just that they could only achieve it with the help of large-scale matrix formations. They couldn't accomplish it alone like Ye Xiwen could.

The spirit stones weren't considered as very valuable. However, they could become precious if the amount was huge. For example... One miniature Spirit Stone Ore Deposit could be worth as much as 100 million 'Primary Spirit Dans'.

Ye Xiwen's eyes shone as he heard this. He had already obtained 1.7 billion 'Primary Spirit Dans' after he had sold his heavenly treasures as well as seized 700 million 'Primary Spirit Dans' from Young Master Jin Xiu. However, he had already consumed 500 million 'Primary Spirit Dans' from that kitty when he had made the breakthrough into the Sage Great Perfection realm. The remaining 1.2 billion 'Primary Spirit Dans' might seem like a big amount. However, it was far from enough as far as Ye Xiwen was concerned.

The star colossus avatar had restored its fighting prowess to the intermediate stage of Great Sage realm. Consequently, its consumption of 'Primary Spirit Dans' had reached to an astronomical figure... It would consume at least 500 million 'Primary Spirit Dans' for fighting just once. Therefore, 1.2 billion 'Primary Spirit Dans' could only support it to fight twice. That's why it could be said that Ye Xiwen's stock of 'Primary Spirit Dans' was far from enough.

The blood slave had already integrated into the star colossus

avatar. And, it would completely replace the star colossus's soul one day in the future. There wouldn't be any need to consume such huge amount of 'Primary Spirit Dans' in order to make the star colossus set out after the blood slave completely merged with the star colossus's body and gained enormous strength.

However, Ye Xiwen believed that it was still worth it. After all, it would've been impossible for him to control the star colossus avatar if he didn't have the blood slave.

This trump card of his was bound to be not so easy to use.

So, how could he not have become excited on seeing the Magic Crystal Ore Deposits in front of him? Other people would need to take these ores to their respective sects in order to convert them into spirit stones. However, Ye Xiwen could absorb them directly. This would obviously spare him the needless troubles.

The entire mountain range was already under a barrage of attacks by the time Ye Xiwen arrived. Several experts were displaying their remarkable skills. All kinds of martial arts moves were fiercely exploding in the sky.

"Bang!"

The entire mountain suddenly exploded, and chunks of Magic Crystal Ore Deposits splashed out. However, three huge Magic Crystal Ore Deposits also flew out along with these chunks. These three huge Magic Crystal Ore Deposits would be considered as miniature Magic Crystal Ore Deposits. However, that was in comparison to the other larger Magic Crystal Ore Deposits. The fact was that these three were of the size of a small hill! They were extremely huge!

Everyone's eyes suddenly popped out with greed. In fact, nobody even looked towards those chunks of Magic Crystal Ore Deposits. It must be said that those chunks of Magic Crystal Ore Deposits were also quite valuable. However, how could they be compared with those three miniature Magic Crystal Ore Deposits?

Even one of those three miniature Magic Crystal Ore Deposits was worth 100 million 'Primary Spirit Dans'. And, this amount of money could be compared to the wealth of a common Great Sage expert. So, one could become rich overnight; they could rise above their competitors if they obtained even one such ore deposit. Consequently, their chances of advancing to the Great Sage realm would also start to look promising.

These people generally couldn't obtain such Ore Deposits. That's because they would be seized either by the major forces or by the Great Sages... In fact, these people wouldn't even get a chance to have a look at it.

Ye Xiwen saw that countless big hands made of spirit energies had extended towards those three Magic Crystal Ore Deposits in the sky in order to grab them.

However, he still wasn't in any hurry. He first went to grab those chunks of Magic Crystal Ore Deposits that had exploded out. Those chunks of Magic Crystal Ore Deposits were far inferior to those hill-sized deposits of Magic Crystal Ore Deposits when considered in their individual value. However, they seemed quite valuable when their large quantity was taken into account.

# Chapter 605: There's an Ambush!

---

A few other experts had the same idea that Ye Xiwen had. However, how could they be a match for him? Those chunks of Magic Crystal Ore Deposits were grabbed by Ye Xiwen's big hand in a moment's effort. Ye Xiwen counted... It wasn't much. However, he had still collected at least 30 million 'Primary Spirit Dans' worth of ore deposits. It must be said that Ye Xiwen had an 'all are welcome' approach regarding these things.

However, the scene still became chaotic...

"Boy, you're courting death. Hand over those Magic Crystal Ore Deposits!" More than a dozen sage experts surrounded Ye Xiwen not long after. They had the same idea as Ye Xiwen had; all of them had thought of taking advantage of this opportunity, and taking away these Magic Crystal Ore Deposits... These deposits weren't as valuable as those three miniature Magic Crystal Ore Deposits. However, they were still enough to make them rich overnight.

They were headed by an expert of Sage Accomplished realm; this man also had two Sage Great Perfection level experts by his side. The rest of the experts were at Sage Small Perfection level. So, this team had tyrannical strength. That was why they had dared to think about this matter.

However, they hadn't even set out when all the chunks of the Magic Crystal Ore Deposits got snatched away by Ye Xiwen. It must be said that Ye Xiwen's speed was extremely fast! These experts had been fascinated by the huge wealth that they could've made from those Magic Crystal Ore Deposits. Therefore, they hadn't paid attention when Ye Xiwen had displayed his super speed and obtained those scattered chunks of Magic Crystal Ore Deposits.

These experts didn't even wait for Ye Xiwen's reply after they gave him a warning; they attacked immediately... The surrounding air exploded just like firecrackers. It got exploded by them just like

magma.

That head expert of Sage Accomplished realm attacked with full confidence. After all, he believed that Ye Xiwen was just an ordinary Sage Great Perfection level expert. Therefore, he felt that it was impossible for Ye Xiwen to turn out to be a match for him.

A spear streaked across the vast sky just like a dragon, and instantly arrived in front of Ye Xiwen! That expert of Sage Accomplished level expert laughed when he found that Ye Xiwen hadn't even responded. That's because he felt that he would bring down Ye Xiwen with just one spear-attack. Therefore, his laughter was particularly sinister.

However, Ye Xiwen finally responded in that crucial moment. The golden light flashed! His big hand transformed into a sword, and went up to tackle the incoming spear.

"Clang!"

A loud metal clanging sound was heard. It shook all directions just like the pitch of a big bell. The sound waves produced by it projected out just like arrows. The scene looked incomparably dreadful!

"Ah!" that expert of Sage Accomplished realm screamed... Both of his hands had been exploded by the tremendous force, and transformed into a mass of blood fog. The fragments of his bones swirled in the air. The spear also shattered into pieces even though it was a sage tool. It had certainly looked like an incomparably strong sage tool. However, it had broken down into pieces just like crumbled paper under just one strike from Ye Xiwen.

Then, Ye Xiwen lifted his leg, and kicked that expert of Sage Accomplished realm on the middle of his chest. A loud crunch sound was heard, and all the bones of that expert got crushed. Simultaneously, his body transformed into a streamer of light, and was sent flying like a kite with broken string. His body eventually broke into the sky over the group of mountains. However, this was

place wherein a fierce struggle was going on between the top experts.

"Bang!" It wasn't clear which half-step Great Sage expert had attacked that Sage Accomplished realm expert. However, that Sage Accomplished realm expert had been grasped, and transformed into a mass of blood fog.

Consequently, those sage experts who had been planning to attack Ye Xiwen suddenly froze. They stood in the sky in a daze. They were dumbstruck... The situation had looked good a few moments ago. However, it had reversed within a snap of a finger. Their leader of Sage Accomplished realm had been sent out flying, and then killed by someone.

They were left dumbstruck. There was no way they would rush over in the present situation. After all, wouldn't that be courting death?

They quickly dispersed like frightened animals. After all, they had arrived here to become wealthy... not to throw away their lives!

Ye Xiwen also didn't want to kill each one of them unnecessarily. So, he entered the battle for those three miniature Magic Crystal Ore Deposits instead.

Those three huge Magic Crystal Ore Deposits emitted bursts of devil energy in the sky. Several experts had been avoiding the devil energy initially. However, they looked very comfortable with it at this time. After all, they had gotten an opportunity to possess huge wealth now.

The several experts had been unceasingly fighting with each other. Meanwhile, the three Magic Crystal Ore Deposits were still floating in the sky; nobody had seized them yet. After all, anyone who would try to set out would have to face the surprise raids of several other experts.

Ye Xiwen shot a glance, and realized that the current situation at the battlefield was very intense... The ordinary sage experts didn't dare to even go close to the battlefield. After all, only the top experts of half-step Great Sage realm were participating in this contest.

Three experts among this lot were in the intermediate stage of half-step Great Sage realm. And, the remaining eight experts belonged to the initial stage of half-step Great Sage realm. All of them were extremely tyrannical. An ordinary person obviously couldn't contend against them.

Ye Xiwen didn't care too much about those experts of initial stage of half-step Great Sage realm. His focus was on those three experts of intermediate stage of half-step Great Sage realm. One among those three experts was a gray-haired old man; he was baby-faced. The second one was a middle-aged expert. And, the last one was an unusually seductive woman.

"Let's do it like this... We are three people. So, let's divide these three Magic Crystal Ore Deposits; one for each of us. There's no need to struggle!" that middle-aged expert of intermediate stage of half-step Great Sage realm said. All those three individuals shot a glance at each other. [There will be no need to fight if each of us got a Magic Crystal Ore Deposit. Moreover, it would eliminate the possibility of someone arbitrarily entering the contest and snatching away these ores from under our noses. Therefore, this is the best way.]

The other two experts also thought about it. [There are so many people. So, it's obviously impossible for a single person to keep all three Magic Crystal Ore Deposits. However, these eight experts of the initial stage of half-step Great Sage realm won't be a match for the three of us. They wouldn't be able to do anything even if they will be dissatisfied with the fact that three of us took all the Magic Crystal Ore Deposits.]

The eight experts of initial stage of half-step Great Sage realm

became very unhappy. They had also gone through a massacre. So, why shouldn't they get any benefits? Why should everything fall into the hands of these three individuals? However, they also knew that these three individuals' strength was far above theirs. And, they might not be a match for these three individuals even if the eight of them fought together.

However, they became unwilling to give up when they realized that the opportunity that could make them rich overnight was about to go out of their hands. 100 million 'Primary Spirit Dans' might only be the icing on the cake for Ye Xiwen... However, it was an astronomical wealth for these experts.

"Let's fight. Why should the Magic Crystal Ore Deposits only be theirs?" a senior expert of initial stage of half-step Great Sage realm resentfully said.

Then, his big hand made of energy stretched out, and went towards one of the Magic Crystal Ore Deposits to grab it.

However, he heard three loud shouts before he could grab those three Magic Crystal Ore Deposits. Then, three big hands fell down on him... This expert of initial stage of half-step Great Sage realm had seemed awe-inspiring until now. However, he got blasted away with ease, and his body nearly exploded as a result.

The gap between the initial stage of half-step Great Sage realm and the intermediate stage of half-step Great Sage realm was already quite big. However, there were three intermediate stage experts against one initial stage expert in this situation. Therefore, that expert of initial stage of half-step Great Sage realm had nearly gotten exploded in just one strike.

Those few experts of initial stage of half-step Great Sage realm had been prepared to jump into the fight. However, they got deterred by this event. They had thought that they might be able to win by taking advantage of all the chaos. However, that had feeling died out. It had become clear to them that these three

experts of intermediate stage of half-step Great Sage realm wouldn't let them win by taking advantage of the chaos.

"He was overreaching himself!" That middle-aged expert of intermediate stage of half-step Great Sage realm coldly snorted. Then, he said in a somewhat disdainful manner.

"Whoosh!"

A burst of howling devil wind blew from afar. Then, dozens of streamers of light descended from the sky. The expressions of these human experts drastically changed when they noticed that the weakest among these streamers of light were the experts of initial stage of half-step Great Sage realm. In fact, there was no shortage of top experts of late stage of half-step Great Sage realm among them. However, the most important thing was that these weren't the auras of humans... They were emitting the devil energy of the devil race.

"This is bad. It's a surprise attack of the devils!" That baby-faced expert's complexion changed. The Devil World wasn't their territory. So, they were mostly afraid of coming across an ambush of devils in the Devil World. And, that's because it would be nearly impossible for them to escape if that happened... It would be a dead end for them!

Therefore, these experts preferred to act in groups. After all, this was the only way they could escape if they got surrounded by the devils in the Devil World. They absolutely wouldn't be able to escape alone.

They had already released their divine senses when they had been fighting here. And, there hadn't been any sign of unusual movements within the radius of a thousand miles. That's why they had been fighting on such a grand scale. However, they hadn't expected that these devils would arrive in the blink of an eye.

This ambush couldn't be compared with the heavy ambush that Ye Xiwen had come across earlier. However, these dozens of devils

were certainly a bigger threat than those troops. And, that's because each of these devils was an elite in the devil race.

These devil clansmen had arrived in front of everyone in an instant.

A young devil expert suddenly dropped from the clouds while carrying a stunning aura; he was the leader of this group. His entire body was covered with layer upon layer of scales. Also, a pair of giant flesh wings could be seen behind his body. He looked quite sinister as a result.

These devils looked a bit similar to the Great Devils. However, their auras had countless times more grandeur than those Great Devils. It seemed as if the traits of all the devils whom Ye Xiwen had seen up until now could be found on the bodies of these devils.

Ye Xiwen suddenly remembered what Ye Mo had mentioned to him once. This was one of the eight noble clans of the Devil World – 'Original Devil Clan'.

This was the Original Devil Clan of the devil race. They were the source of all the devils if the rumours about them were to be believed. All the devils had split up from the Original Devils. The Original Devil Clan had always been the first ancestors of the entire devil race. They were considered as very arrogant. After all, all of the devils had originated from the Original Devil Clan.

No wonder why Ye Xiwen felt as if he could sense the reflections of all other devil clans on the bodies of these devils.

There was a period of time back in the day when Ye Mo had been encouraging Ye Xiwen to enter the Devil World. Ye Mo had vowed that he would cultivate Ye Xiwen as the next Devil King, and lead the Devil World to conquer all of the Ten Thousand Worlds.

Ye Xiwen hadn't agreed. But, he had come to know about many matters of the Devil World from Ye Mo... An ordinary human might not be able to recognize the Original Devil Clan. It was

because the Devil World never dispatched its true power to deal with the True Martial World. In fact, only the Great Devil Clan was dispatched from the Devil World to attack the True Martial World. This was because the Great Devil Clan had a massive population, and was considered as the main force of the devil race. Therefore, many people in the True Martial World had the impression of devil race as Great Devils. They had no idea about the Original Devil Clan. It was quite mysterious among the eight noble clans.

Ye Mo naturally confirmed Ye Xiwen's guess at once.

"It's the Original Devil Clan!" Ye Mo said. "These Original Devils are still as annoying as ever!"

Everyone apart from Ye Xiwen was left dumbstruck. Another ten or so tyrannical experts of half-step Great Sage realm arrived after the young expert of the Original Devil Clan. Moreover, there wasn't only the Original Devil Clan. The Great Devil Clan and a few other smaller clans were also there. All of these devils were extremely intrepid... without any exception. They were the elites in the same realm.

A human expert screamed loudly. He then turned around, and flew away. However, he hadn't escaped yet when a big hand suddenly split open the sky. This hand then caught that sage expert high up in the sky, exploded him, and transformed him into a mass of blood fog.

# Chapter 606: A Heavy Slap on his Face!

---

There was a pin drop silence. Only the miserable scream of that expert who had been running away could be heard at the moment.

"Humans are very weak. Are all of you like this scaredy cat?" that young leader of the Original Devil Clan said somewhat disdainfully. He didn't pay attention to that expert who had been running away. The blood of that expert was dripping from his fingertips. He had attacked and smashed that human expert a moment ago.

His tone was mocking. It was full of disdain for humans. The Original Devil Clan was considered a very arrogant clan among the devil clans. They even looked down upon other devil clans. And, these humans were like weak sheep in their opinion.

Everyone was terrified. These people were considered as elites among the forces of True Martial World. However, they became scared when they saw this young expert of Original Devil Clan casually grabbing and killing that sage expert.

The young expert of Original Devil Clan didn't conceal his wild and bloody aura. His strength was unfathomable; he was just a foot away from entering the Great Sage realm. In fact, he could become a peerless Great Sage expert! Everyone searched through their memories, and came to a realization that there was hardly any person below Great Sage realm in their knowledge who could be a match for him.

He must be a heaven's pride expert among the devil experts — and the most terrifying one at that.

Let's say that everyone was divided into three ranks – ordinary ones, elites, and heaven's pride experts. Then, these people would be truly terrified whilst determining the level of this young devil expert who was present before their eyes. These experts were elites. There was hardly any match for them among their peers.

However, they weren't heaven's pride experts. Only a heaven's pride expert was truly invincible. Only a heaven's pride expert could contend against another heaven's pride expert in the same realm. It would be a dead end for ordinary experts if they came across a heaven's pride expert.

Moreover, these people and that young expert of the Original Devil Clan weren't in the same realm. Even the strongest person among these people differed by a level from that young expert of Original Devil Clan. This meant that this young leader alone could slaughter all of these human experts.

Moreover, there were dozens of senior experts of half-step Great Sage realm behind him, and each one of them was an elite.

Ye Xiwen had a much clearer look than these people. He could spot another heaven's pride expert among them. A heaven's pride expert of Asura Clan was hidden among those devil experts. His aura looked valiant. It mustn't be much weaker than the aura of that young expert of the Original Devil Clan.

However, what made Ye Xiwen surprised was the fact that this heaven's pride expert of Asura Clan was a subordinate of that young expert of Original Devil Clan. This wasn't something an ordinary individual could achieve.

Heaven's pride experts were one in 100 million. They were chosen by the Heaven. Every person that became a heaven's pride expert was proud and arrogant. They were unruly and untamed. Each of them wanted to rise to the peak. So, making a heaven's pride expert one's subordinate was as difficult as ascending to the Heaven.

Let's consider the case of Cao Yuyu and Mu Sheng Jie... There was a difference of many years between them. Their strength also differed enormously. So it wasn't strange that Cao Yuyu followed Mu Sheng Jie. However, the people who could force someone of the same realm to work as a follower were extremely rare.

Therefore, it was clearly visible that that young expert of Original Devil Clan was extremely terrifying.

This group of young experts of devil race had arrived together to block these human experts. They didn't have a dominant position in terms of numbers against these human experts. However, Ye Xiwen still felt that this whole situation was like overkill.

After all, even a handful of these devil experts could wipe out all of the human experts gathered here.

Ye Xiwen couldn't help but frown as he thought of this. These devil experts were very difficult to deal with. Even Ye Xiwen would have no choice but to escape whilst facing these experts if he didn't summon the star colossus avatar.

Everyone was trembling with fear. However, nobody dared to turn around, and escape. After all, they had already seen what had happened to that expert who had tried to escape just a moment ago. So, what would happen if they also turned around, and tried to escape? "Your Majesty Mo Tian has made a clever scheme. You've attracted these silly humans by using just a few miniature Magic Crystal Ore Deposits!" an expert of devil race who was behind his leader — Original Devil Mo Tian — complimented him.

The other devil experts also agreed one after another. They simply looked down on these human experts. They believed that these human experts were just like meat placed on the chopping board. They could kill them whenever they wanted.

The complexions of most of the human experts turned a deep shade of red with anger. However, they couldn't do anything since they were too weak. It wasn't that there wasn't any powerful expert among all the human experts of the universe. However, there surely wasn't any such expert present here.

They had been thinking of these devil races as their prey before they had arrived here. They had believed that the Devil World was their hunting ground where they could run amuck. But, who

would've imagined that they themselves would become the prey in the end... that they would be considered as meat placed on chopping board... that they could be slaughtered on a whim?

"Unfortunately, there isn't enough time to attract real human geniuses!" Mo Tian said somewhat dejected. "These human experts are extremely audacious. They consider our Devil World as their hunting ground. It's truly ridiculous. They hardly realize that they are just sheep in front of us. Never mind. We'll find those heaven's pride experts of human race, and challenge them after we've killed this lot. I'll return to closed-door training, and make the breakthrough into Great Sage realm after I've devoured one such human expert. I'll attain a higher status in my clan after that!"

Mo Tian's words didn't contain contempt for these experts. On the contrary, he considered them as his bloody meal. He believed that his martial power would skyrocket after he devoured them.

The vitalities of these experts were very rich. It was true for any devil that their martial power would rise enormously after they swallowed this vitality. It was just like how the human experts would progress after they absorbed the demon cores of the demon beasts. Nothing was impossible.

"Fu\*k, let's fight with them!" an expert couldn't help but shout out loud. These devils considered them as a bloody meal. They clearly wouldn't let them off. So, when should they resist them if not now?

However, his voice hadn't even faded when a terrifying beam streaked across the vast sky, and chopped off his head... His bloody head went out flying. It was a gory scene!

However, the devil race naturally couldn't deter those experts at this time. After all, a sword was hanging on these experts' necks no matter whether they extended their heads or retracted them. At worst they would have to fight. A person must die with pride... They mustn't run away from the battlefield.

These human experts knew that they could survive only if reinforcements suddenly appeared at this time. Otherwise, they would be completely crushed, and wouldn't be able to escape. Their death was almost certain. Therefore, they might as well just fight.

Moreover, they didn't know whether the people who would arrive next would be their enemy or friend. They might even be abandoned to be wiped out.

Only a few people among all of them might have never come across a desperate situation of life or death even after cultivating till this extent. They obviously didn't want to die. However, they weren't afraid of death either. They wouldn't retreat even if they were cornered!

They would only fight to death!

Those human experts together launched the most formidable attack after one of the human experts said this. It seemed as if their attack would unleash a destructive power that would destroy the sky itself.

"Overconfident ants!" Mo Tian coldly snorted. Then, a big hand stretched out. It covered the entire sky, transformed into a devil energy cloud, and crashed down overwhelmingly. The attack of those experts immediately disappeared after it got grasped by that big hand.

"Ye Xiwen, this is a good opportunity to grab those three Magic Crystal Ore Deposits. You can use the star colossus avatar at least once with that!" Ye Mo agitatedly said.

The star colossus avatar possessed great might. However, it would consume an astronomical amount of Primary Spirit Dans every time it was brought into use. It would consume more than 500 million 'Primary Spirit Dans' for fighting just once now that it had made the breakthrough into the intermediate stage of Great Sage realm. Ye Xiwen didn't dare to use it casually even if he was

filthy rich. It was his trump card for saving his life in the Devil World.

Ye Xiwen didn't hesitate any further as he thought of this. He immediately set out. Suddenly, a fire cloud filled the entire sky. It then transformed into a big hand, and suddenly swept towards those Magic Crystal Ore Deposits which were floating in the sky.

Ye Xiwen's speed was extremely fast. He grabbed those Magic Crystal Ore Deposits in an instant, and put them inside the Heavenly Source Mirror.

"Who was that?" Mo Tian became angry. He had just defeated the attack of those experts in a manner that made it seem as if a cat was playing with a mouse. However, someone had taken advantage of this distraction, and had snatched away those three Magic Crystal Ore Deposits.

He had taken out these Magic Crystal Ore Deposits in order to lure those human experts. However, he had used them as bait and nothing more. He believed that these ores were still his stuff, and the other people couldn't touch them. However, Ye Xiwen had taken advantage of the chaos, and had snatched away those Magic Crystal Ore Deposits. Consequently, Mo Tian felt as if someone had thrown a heavy slap on his face.

He was born in a noble family. However, it could be said that 300 'Primary Spirit Dans' were the majority of his net wealth. So, it would certainly be a huge loss for him if he lost it.

His gaze locked upon Ye Xiwen's body almost in an instant. He became angry, and his face turned purple with rage when he saw a grin on Ye Xiwen's delicate and pretty face. It was obviously a disdainful smile which he had happened to see.

[Is he ridiculing me?]

Mo Tian had been looking down on these humans until a moment ago. He considered them as his prey. However, someone

among these preys had given him a tight backhanded slap on his face. Moreover, it was a very loud slap!

This blow had made him dizzy!

He was an arrogant man since he had been rich since childhood. He also possessed high innate talent. So, he looked down on everyone. However, someone had given him a tight slap on his face this time. So, how could he let it pass?

He suddenly roared in anger, "Catch him for me!"

The other devils' gaze fell on Ye Xiwen at this time. They had also found that the Magic Crystal Ore Deposits had been snatched away by a human.

They became angry as a result. It had looked like a flawless plan. It seemed as if this plan had been rehearsed properly in advance. It was as if everything had already been predicted. They couldn't attract the powerful heaven's pride experts of the human race as intended. However, their plan hadn't gone in vain since these people also had many experts of half-step Great Sage realm. The martial power of these devils would've increased enormously after having devoured them.

They had made such a perfect plan... However, they had made just a small mistake at this time, and the Magic Crystal Ore Deposits had been snatched away by someone!

However, it didn't matter. It was still a dead end for that person who had taken away the Magic Crystal Ore Deposits. And, the Magic Crystal Ore Deposits would return to their hands as long as they killed him.

Ye Xiwen grinned. It seemed as if he was mocking those devils who considered themselves very clever. After all, these devils had now suffered a double loss after trying to trick the enemy. Ye Xiwen suddenly unfolded the golden devil wings behind his body, transformed into a streamer of light, and flew away.

He didn't care about the other human experts. However, he had still attracted the attentions of the most ferocious devils. So, those human experts could now escape from the remaining few.

# Chapter 607: Rushes Out of the Tight Encirclement

---

Ye Xiwen didn't have a good opinion regarding those disciples of other forces. So, he wouldn't mind attacking them if they provoked him. However, targeting them at this time wouldn't be considered virtuous if the countless years old enmity between humans and devils was taken into account. The enmity between them was obviously very deep. It was like an ocean of blood!

Perhaps, some people could've done this. However, Ye Xiwen wasn't in a situation to use such underhanded means at this time.

He was certain that the most ferocious devil would soon catch up with him. And, the other human experts could escape from the remaining few devils at that time. He also didn't want to use the Star Colossus's Avatar since he felt that it wouldn't be worth it to do so in such a matter. After all, he would have to use up those three Magic Crystal Ore Deposits which he had obtained with great difficulty. And then, all his hard work would go in vain.

He could use the Star Colossus's Avatar thrice... once at a time. It was his protective talisman in this Devil World. Therefore, he didn't wish to use it unless he was in great need. Moreover, he had planned to use the harsh living environment of the Devil World to temper himself.

Furthermore, it was impossible for these devils to catch up with him!

It seemed as if those devil experts had turned into a group of infuriated roosters. They attacked Ye Xiwen one after another with a killing intention. Their dreadful martial arts congealed a huge spectre in the sky! That spectre then stepped ahead, and caught up with Ye Xiwen. Then, its foot suddenly smashed down upon Ye Xiwen.

It seemed as if the entire world would crumble under this foot. A dreadful power was boiling therein. It seemed as if this attack had been unleashed with an intention to kill Ye Xiwen since there wasn't any sign of holding back in the attack.

Ye Xiwen was merely an expert of Sage Great Perfection realm. But, they had still launched a full-scale attack on him. So, it was clear how furious they were. Their rage could simply burn the sky!

Ye Xiwen boldly retaliated... He clenched his hands, and formed a pair of fists. His hands then produced two big stars in the sky; they looked like a pair of iron hammers. The big stars went across the sky, and suddenly pounded upon that big foot... just like a meteor crashes on Earth!

"Bang!"

A dreadful force reverberated. Two tremendous forces boiled at once. And, everything present in the surroundings got transformed into nothingness as a result.

"Puff!" Ye Xiwen felt a strange taste coming from his throat, and spouted a mouthful of blood. There wasn't any suspense left. His whole person had been stepped down to fall from the sky.

Ye Xiwen was tyrannical. But, he could also only contend against a few experts of intermediate stage of half-step Great Sage realm. However, the majority of these devil experts were in the intermediate stage of half-step Great Sage realm. Moreover, a few experts of late stage of half-step Great Sage realm were also present among them.

Even a person as strong as him suddenly spouted mouthful of blood under their joint attack. It was like he was fighting dozens of senior experts who were also stronger than him. Therefore, he couldn't resist even after using the strength of the seventh layer of his tyrant body technique. In fact, he had almost gotten trampled to death.

Ye Xiwen had spouted blood. However, other people were left dumbstruck by this. [The joint attack of dozens of senior experts of intermediate and late stage of half-step Great Sage realm has failed to kill Ye Xiwen on the spot. He has such a powerful body... Is he some kind of a monster?!!]

Those sage experts who had planned to rob Magic Crystal Ore Deposits from Ye Xiwen earlier had particularly been scared to death at this time. They had thought that Ye Xiwen was cocky. So, they had wanted to kill him. However, they now thought that they were lucky that they hadn't chosen to do so. Otherwise, it would've been impossible for them to escape if they had gone ahead with the idea of killing Ye Xiwen.

"Brothers, let's go. Everyone run away. We'll humiliate these devil brats in the future as long as there will be life left within us. We'll kill these devil brats!" someone reacted, and unwillingly roared.

Everyone had been finally mobilized by him. That's right... It wasn't the time to watch Ye Xiwen's performance. It was the time to take advantage of this opportunity, and escape when the gazes of the majority of devil experts were fixed on Ye Xiwen. This was the only way.

A faint sound of the Phoenix came from inside Ye Xiwen's body at this moment... The Phoenix Regeneration Technique was at work! Ye Xiwen hadn't used the Phoenix Regeneration Technique since a long time. However, he had fully grasped the understanding of this technique. His present understanding of this technique couldn't be compared with earlier.

The injuries that Ye Xiwen had sustained by the impact just now got healed almost in an instant.

Ye Xiwen didn't hesitate any longer... He promptly flew outward to break out of the encirclement! Those devil experts also reacted one after another. They were also dumbstruck. They hadn't

anticipated that Ye Xiwen would be able to withstand the impact of that massive foot.

They heard a sound of breaking of glass when they were about to stimulate that huge spectre once again to attack and kill Ye Xiwen.

"Crack!"

"Crack!"

Everyone was left dumbstruck. The fact was that the huge spectre that had stepped upon Ye Xiwen a moment ago had been shattered into pieces like a glass. It seemed as if it had suffered a heavy blow by a tremendous force.

That tremendous force spread throughout that spectre's body. Consequently, its entire body disintegrated and crumbled with a loud scream.

"How is this possible?" Mo Tian looked on in a daze. He had been trained as a heaven's pride expert since childhood. It could be said that he was an experienced and knowledgeable person. What kind of person had he not seen? However, he hadn't expected that someone wouldn't only survive in this situation, but also smash that spectre into pieces.

He was sure that he couldn't do it if he were to be in Ye Xiwen's place. Sage Great Perfection level experts might become overlords who could establish sects in the True Martial World. However, they were simply nothing in Mo Tian's opinion. He knew that he would've been screwed if he had come cross the joint attack of so many senior devil experts of half-step Great Sage realm when he used to be at Sage Great Perfection realm. It would've been impossible for him to escape because the experts of intermediate stage of half-step Great Sage realm weren't the only ones involved in this attack; even the attacks of the experts of the late stage of half-step Great Sage realm were mixed in. It was simply impossible to be a match for them.

However, that was exactly what Ye Xiwen had done. On top of that, he had defeated the spectre.

"What kind of physique does he possess? How can he be so powerful?" Mo Tian was somewhat baffled.

"Your Majesty, he might be an owner of some special physique among the humans. He might have restored a part of the lineage of ancient humans. Our cultivation will progress even more quickly if we devour a human who has such a special physique. Moreover, we might evolve a physique similar to this special type after we've devoured this human expert!" The heaven's pride expert of the Asura Clan was behind Mo Tian. He suddenly stepped forward at this time, and said. He was looking at Ye Xiwen with a greedy expression in his eyes... It seemed as if he was looking at an exotic cuisine!

There were various kinds of clans among the devil race. And, every clan had its own speciality. Humans didn't have so many divisions. However, they used to have various traits in the past. Furthermore, the quantity of such traits wasn't much. So, it could be said that every trait was a precious treasure. Therefore, the martial power of these devil experts would increase sharply if they swallowed even one individual who possessed ancient human traits. It certainly wasn't a myth.

Mo Tian's eyes suddenly lit up. That's right... He had been thinking only about the shock that Ye Xiwen had given him. He hadn't been able to think anything else. However, he wasn't shocked anymore... Instead, he was thinking rationally now. Ye Xiwen had shown such a stunning performance. So, he must have some special bloodline in his body. This human could become a huge supplement for him!

"Catch him!" Mo Tian ordered. He himself took the initiative at this time, and chased after Ye Xiwen.

That heaven's pride expert of the Asura Clan also rushed out.

Several devil experts rushed towards Ye Xiwen one after another. Only a few of them had stayed here in order to encircle the other human experts. After all, these human experts were very insignificant in comparison to Ye Xiwen.

These experts with ordinary physiques were just like bloody meal for them. They didn't deserve to become even their slaves. There was absolutely no need to give importance to a group of such puny experts. However, there weren't many humans like Ye Xiwen who had such a special physique. Who would let such a person go?

Ye Xiwen's speed was extremely quick. He was about to break out of the encirclement of the devils. However, a senior devil expert of intermediate stage of half-step Great Sage realm had already arrived in front of Ye Xiwen. He had blocked Ye Xiwen's way in an attempt to prevent him from escaping.

His face was full of scales. And, it was brimming with a ruthless and sinister expression. He was looking at Ye Xiwen in a manner that made it seem as if he was looking at a meal.

Ye Xiwen had come to know about the devil race's characteristics from Ye Mo. Therefore, he obviously knew what they were thinking. He felt a bit sick after he thought that he was being considered as a bloody meal by these devil experts.

"Get out of my way!" Ye Xiwen shouted. He then angrily shot a punch in full swing... Ye Xiwen had attacked in a hurry. However, he hadn't held back. After all, he couldn't afford to be stopped. Otherwise, those devil experts who were coming from behind would catch up with him.

His speed was so fast that he could escape even from the hands of a Great Sage. However, the precondition was that he mustn't get surrounded... Ye Xiwen had enormous skills. However, he wouldn't be able to escape if he got surrounded. He would have no other choice at that time but to take out the Star Colossus's Avatar. And, that would mean that all of his hard work would go in vain.

That devil expert of intermediate stage of half-step Great Sage realm felt the fist wind coming over... It seemed as if a mountain was rolling over to crush him.

The fist wind, fist pressure, and fist intention along with the boiling Real Elemental Energy crushed the vacuum, and produced a black crack in space. And, this crack immediately proliferated in that devil expert's direction.

"Go to hell human!" That devil expert angrily shot a set of devil fist technique... Waves of fierce wind started to wail everywhere. It seemed as if a country of devil gods had been established. People were dying everywhere. It was deadly and frightening spectacle!

"Bang!"

It was a shocking scene of doomsday! It seemed as if a big star had suddenly collided with that country of devil gods, and destroyed the mountains and rivers! Countless followers of devil gods were evaporated in an instant. They screamed as they perished.

The small country of devil gods was collapsing. It was being crushed by Ye Xiwen's fist technique... inch by inch!

That devil expert got frightened when he saw that Ye Xiwen's fist was quickly approaching him. He roared repeatedly, and shot all kinds of martial arts techniques. However, he couldn't stop Ye Xiwen's advancement.

"Get wrecked!" Ye Xiwen shouted as he advanced step by step. The world trembled under his footsteps, and the void broke down. The defences of that devil expert collapsed under his steps.

The devil expert felt as if he was being torn apart by a tremendous force. He then suddenly disintegrated in the sky. Blood splashed out, and the fragments of his bones started to swirl in the air.

His death created an opening in the encirclement that had been laid out by the devil experts. Therefore, Ye Xiwen quickly

transformed into a streamer of light, and flew out.

"Damn it! Chase him for me!" the angry roar of the flustered and exasperated Mo Tian came from behind him.

# Chapter 608: Freeze For This Young Lady

---

Only a short time had passed. But, Ye Xiwen had already flown past a great distance along with the dozens of senior devil experts in tow. He had transformed into a streamer of light, and had disappeared into the horizon rather quickly.

"Brothers, let's fight with these devil bastards, and kill them!"

The remaining experts became pleasantly surprised when they saw that more than half of the devil experts who had planned the ambush had flown away. The ambush had been a dead end for them earlier. However, they had now recovered from a seemingly impossible situation. The devil experts who had stayed here were quite formidable even if they weren't many. However, they had a way out now. It was hard to say how much better their present situation was than earlier.

Therefore, there was no reason to hesitate now.

The human experts suddenly rose in revolt, and started to fight with the group of remaining devil experts.

Meanwhile, those devil experts who were chasing Ye Xiwen weren't getting any closer to him. They were flustered and exasperated. However, it was clear that each one of them was an elite. All of them possessed a special agility technique. Therefore, their speed was very fast. They even pulled out trails of afterimages in the sky. However, they still couldn't overtake Ye Xiwen's speed.

Those human experts weren't present here. Therefore, Ye Xiwen didn't hesitate a bit... He immediately stopped suppressing the devil characteristic on the devil wings with his divinities. Consequently, his speed became even faster.

The divinities crawled all over his body after he had stopped suppressing the devil characteristic. Consequently, his vision

became even more profound. Moreover, his delicate and handsome face suddenly became unusually devilish... It seemed as if the entire Devil World had suddenly melted into his body.

"Chase him for me. I must kill him brutally!" Mo Tian's face was cold as he said. His complexion had turned exceptionally ugly. Nobody had ever played with him like this... Nobody had thrown such a big slap on his face. He had never faced such humiliation.

Therefore, he wouldn't be satisfied until he dismembered Ye Xiwen's body into ten-thousand pieces!

Ye Xiwen kept flapping the black wings behind his body, and crossed hundred miles in an instant. What had mostly made Mo Tian depressed was the fact that he couldn't catch up with Ye Xiwen. He was obviously far stronger than Ye Xiwen. However, he couldn't catch up with him at this time. This was the thing that had made him the most depressed.

All kinds of attacks approached Ye Xiwen from behind. However, his devil wings suddenly issued the sound of wind and thunder, and he seemingly transformed into a God of Wind and Thunder. He intercepted all the attacks. Those attacks couldn't injure him even a bit!

Ye Xiwen's seventh layer of 'tyrant body' was still very strong. Therefore, these devil experts couldn't injure him unless they joined hands. However, it was simply impossible for them to collaborate at this time when they were focussed entirely on keeping up with him.

Moreover, there was a disparity in their respective martial powers. There had been no problem in the beginning when all of them had taken off together. However, they must do their utmost now whilst chasing Ye Xiwen. Otherwise, they would be left behind. And, the distance between them and Ye Xiwen would widen even further.

Mo Tian was feeling that he had lost face. So, he couldn't let Ye

Xiwen go at any cost. He frantically pursued him for three days and three nights! He didn't want to let Ye Xiwen go. He wanted to exhaust his 'Real Elemental Energy', and then kill him. He also knew that most of the human experts who had arrived in the Devil World couldn't absorb the devil energy present in the air; only the ones who could transform into devils could do so. Therefore, most of these human experts could only depend upon those 'spirit dans' for replenishing their 'Real Elemental Energy'. However, he didn't know that Ye Xiwen could directly absorb the devil energy. Therefore, it was useless if he thought that Ye Xiwen would die because of exhaustion of 'Real Elemental Energy'.

"Ye Xiwen, your purpose of arriving in the Devil World will go in vain if it continues like this!" Ye Mo said. All of these devil experts were extremely formidable. So, it would be quite normal for them to keep pursuing or fighting like this for ten years or even twenty years. However, this wasn't something that Ye Xiwen wanted.

"Bang!" A huge claw suddenly fell down from sky to grab Ye Xiwen.

Ye Xiwen dodged the sneak attack of that claw. He then clenched his teeth, [I don't want to call out the Star Colossus's Avatar. But, these horrid devil experts will get killed if I do so. Then, I'll get some relief from this unceasing chase.]

Suddenly, a mountain range appeared in front of Ye Xiwen. The devil energy was present in abundance therein. Ye Xiwen flew down headlong into it without any hesitation. He wouldn't mind summoning out the Star Colossus's Avatar if these devil experts still acted recklessly and came down chasing him. Then, the Star Colossus's Avatar would kill all of them.

Those devil experts were about to continue chasing Ye Xiwen. However, they suddenly remembered something when they saw him heading into the mountains. And, they stopped in mid-air as a result...

"Your Majesty, this place is..." the heaven's pride expert of the Asura Clan stepped forward, and said, "I've heard that a devil beast that has recently entered the Great Sage realm stays here. We would come across great danger if we broke into its territory!"

The relation between the devil race and the devil beasts of the Devil World was nasty... It was as if two tribal groups had been fighting for survival.

Mo Tian shot a glance at that mountain range filled with devil energy with his ice-cold eyes. He hesitated a bit. He wouldn't have minded rushing into this mountain range earlier. However, the king of these mountains had recently made a breakthrough into the Great Sage realm. So, it was a completely different situation now. After all, a Great Sage didn't have a low position even in the Devil World.

"That man has boldly entered inside. He's courting death. As per the records... a Wind and Thunder Devil Snake lives in these mountains. It had started its transformation into a flood dragon a hundred years ago. And, it has recently completed that transformation, and become a devil flood dragon. Moreover, that human expert has gone into its territory. So, he is going to become that devil flood dragon's meal. He is doomed now!" the genius of the Asura Clan said.

Mo Tian wasn't willing to give up. However, he knew that the devil beasts wouldn't differentiate between humans and devils. They would treat both as enemies.

"Station someone here for me. And, inform me if that boy doesn't die!" Mo Tian said. He had thought for a while, and had then decided not to stay here any further since it would be useless to do so. He hadn't brought too many of his subordinates this time. After all, he didn't wish to use them to surround an insignificant person of the Sage Great Perfection realm.

His target was to kill a few heaven's pride experts of the human

race so that he could become famous in the Devil World and obtain a high-level status in his clan.

This was almost the default unwritten rule on both sides... devils and humans — no expert could get a favourable condition by cultivating in a protected environment. They had to go through unceasing slaughtering... And, only those who would survive would ascend to the peak.

And, as for other people... it was almost set by default that they would end up becoming the corpses that would pave the way for the victors. It was quite cruel. However, this was also the reality!

The road to invincibility needed many sacrifices!

It was obvious that nobody wanted to become the corpse on someone's journey to invincibility. Everyone considered other people as their stepping stones!

Ye Xiwen didn't know what Mo Tian was thinking. He just noticed that Mo Tian hadn't come down chasing after him. So, he heaved a sigh of relief. He then thought to have a glance on the surrounding environment... These mountains were located inside the Devil World. However, they could be regarded as a beautiful green place. He could hear the running water as well as a faint pleasant sound that was coming through it.

He saw a giant lake; it had a radius of fifty kilometres or so. It was spread as far as his eye could see. This lake was different from ordinary lakes. The temperature of this lake was unbearably low. One must know that an ordinary variation in the temperature couldn't affect Ye Xiwen as per his current cultivation. However, this place was so cold that it made him shiver. The strange thing was that the temperature was so low that the lake should have frozen... However, this lake hadn't frozen. It was still in its liquid state.

Layers of vapour were unceasingly floating on its surface. Therefore, it looked hazy, and the visibility was low. Ye Xiwen saw

a fuzzy petite silhouette inside the lake. It looked captivating!

However, he hadn't clearly seen anything when an evil wind swept down from the sky and hit him on his face. Then, a small white hand suddenly shuttled out from the vacuum, and swept out towards Ye Xiwen's throat to grab it.

Ye Xiwen was startled by this. He had been in a state of high alert since the time he had entered this mountain range. That's because that he didn't think that Mo Tian had given up the thought of pursuing him even if he hadn't come down here chasing after him. After all, it had seemed obvious just by looking at Mo Tian's ashamed and angry appearance that he wouldn't give up unless he got hold of Ye Xiwen.

There had been only one possibility. There was something in these mountains that Mo Tian was afraid of. However, Ye Xiwen had had no choice since it might have taken him several years to get rid of Mo Tian if he hadn't arrived here.

It had seemed from outside that this place was brimming with dreadful devil energy. However, Ye Xiwen couldn't see even the shadow of a beast once he arrived down here. This had naturally made him somewhat suspicious.

Ye Xiwen had an urgent feeling of a bad omen in his heart. So, he stepped away. Then, the devil wings suddenly unfolded behind his body, and his figure flew away about hundreds of feet in order to avoid being clutched by that small hand.

"Freeze for this young lady!" a lovable voice sounded. And, the power of principles caressed Ye Xiwen's face, and swept across. Ye Xiwen felt as if the surrounding space had suddenly been frozen. It had been frozen by the mysterious power of this figure.

This was the power of the Great Sage realm! Ye Xiwen had used the Star Colossus's Avatar in the past. So, he was quite familiar with this power.

[This is the power of the Great Sage realm!]

A perilous situation aroused in his mind. [The opponent turned out to be a Great Sage?! It isn't surprising that Mo Tian didn't dare to come here. So, this was the reason...]

His whole person had frozen in the sky, and he had been rendered incapable of moving. So, he was thinking to call the Star Colossus's Avatar in order to help him break free.

However, he then saw an approximately sixteen-or-seventeen year old girl stepping over the void. She quickly arrived in front him... Her persona was somewhat gloomy, and her countenance was somewhat dull. However, her clothes looked especially vivacious. Her skin was as fair as snow... It was unusually white. Her dark gray eyes were full of curiosity.

[She's so cute! She looks just like a cute little girl!]

However, what Ye Xiwen mostly cared about was the pair of long gray wings that had converged behind this girl's body.

[Fallen Angel!]

This thought suddenly emerged in Ye Xiwen's mind. Fallen Angel was the most mysterious clan among the eight noble clans of the devil race. It was said it wasn't a native clan of the Devil World... It had joined the Devil World later. They didn't have too many people. However, they had many outstanding geniuses. This small but highly refined clan was a striking contrast to the populous Great Devil Clan.

The Fallen Angel Clan was considered as a low-key clan in the Devil World. However, nobody dared to underestimate these angels. In fact, even those other seven noble clans didn't dare to do so.

[I hadn't expected that I would see the most mysterious and low-key Original Devils as well as the Fallen Angels soon after arriving in the Devil World.]

# Chapter 609: The Second Layer of Devil Wings Takes Form

---

The Fallen Angels were different from the arrogant and haughty Original Devil Clan. They had always maintained a kind of low-key magnificence. It could be said that they were noble among nobles... Several people had participated in the Devil World Competition over the years. Many of them had participated multiple times. However, they had never seen the Fallen Angels. In fact, many of them had never even heard about them.

Ye Xiwen looked absent-minded. However, he quickly regained his focus. He was stunned to see that young girl before his eyes... This girl wasn't very old. In fact, she must be younger than him. However, she was already in the Great Sage realm!

Ye Xiwen was emotionally moved despite being in this hostile situation. [So, the saying that everyone in the Fallen Angel Clan is a genius wasn't false.]

However, he had thought about this just for a moment. After all, he was still focussed on trying to save his life. Moreover, he was also planning to take out the Star Colossus's Avatar. However, he wasn't sure if even the Star Colossus's Avatar would be a match for this delicate looking girl present before him.

"Which kind of devil are you?" That girl of Fallen Angel Clan looked at Ye Xiwen somewhat curiously. Then, she became angry the next moment, "Why did you peep-in when this Young Lady was taking a bath?"

The girl opened her eyes wide... Her watery-clear eyes looked so clear that one could see the bottom. She was brimming with anger. However, she didn't look terrifying. On the contrary, she looked even cuter.

Ye Xiwen almost spouted a mouthful of blood.

[Peeped-in when she was bathing?] He obviously hadn't seen anything since the time had been too short. In fact, he had almost gotten clutched to death by this girl in an instant.

Moreover, he hadn't arrived here with such intentions. After all, who could've imagined that someone would be taking a bath in this desolate mountain whilst being unafraid of those devil beasts?

He then further thought about this matter. Any devil beast who wasn't cautious and dared to approach this young girl would be doomed for sure if one were to take her fighting prowess into account.

"When did I peep in on you bathing? I haven't seen anything!" Ye Xiwen replied whilst feeling quite helpless.

"That because this Young Lady had already discovered you!" That girl of Fallen Angel Clan looked at Ye Xiwen in a smug manner. "Why haven't you answered me already...? What kind of devil are you? How are you different from those unbearably ugly devils?"

[Unbearably ugly devils!]

Ye Xiwen was left dumbstruck... It had been quite a long time since he had set foot on the road of martial arts. However, he had never heard someone using terms like 'beautiful' and 'ugly' as a criteria to judge anyone. Let's say that there was a man who possessed tyrannical strength. Then, it was certain that beautiful women would willingly spend money on him instead of demanding it even if that man had missing limbs.

After all, attractive looks couldn't act as an advantage... Having formidable strength was the way of the King!

"Ye Xiwen, think of a way to escape from here. This girl isn't affable!" Ye Mo said.

He could see a murderous look in the eyes of that girl of the Fallen Angel Clan. It seemed as if she was passing judgement on him even though she was the victim.

Ye Xiwen hadn't thought much when the eyes of that girl of Fallen Angel Clan shone. She then said, "You don't have wings and scales. You're a human? Yes, yes. It's no wonder that you don't have devil energy on your body. I've seen pictures of humans in the illustrated handbook..."

Ye Xiwen's faced turned black. [What are humans? Are they some endangered animals that one can recognize only through illustrated handbooks?] He found it a bit absurd.

"I hadn't expected that humans would be like this. You're so weak!" the girl of the Fallen Angel Clan said with disgust.

Ye Xiwen very much wanted to say — 'we humans also have some powerful characters, you know'!

"You'll become my pet. This is the price of peeping on this Young Lady when she was bathing. I'll take good care of you. And, you'll come in handy if someone tries to flaunt their abyss devil wolf pet in front of me again... You'll help me in putting them down!" The girl of Fallen Angel Clan brandished her small fist. It seemed as if she was already daydreaming about this flashy scene. Her eyes were shining... They looked like a pair of night pearls. "Great! It's decided then!"

[What? Pet?]

Ye Xiwen felt as if his firm heart would collapse any moment... He was feeling wronged and sullen!

He had seen many demon beasts being tamed as demon pets. However, he had never thought that he himself would become a pet of a devil one day.

"He he... Ye Xiwen, you might as well become her devil pet, and be done with it. This Fallen Angel has an extraordinary origin. I can feel the grandeur of her noble bloodline on her body. It's not a bad deal!" Ye Mo jokingly spat out these words.

"Get lost!" Ye Xiwen replied angrily.

"The most important thing is that you can't defeat her even if you don't agree. In fact, you can't defeat her even if you call the Star Colossus's Avatar. This girl isn't very old. However, she possesses unfathomable strength!" Ye Mo said.

"Get lost. You can go and become her pet if you want to. I won't be able to raise my head with dignity in the future if I become someone's devil pet!" Ye Xiwen resentfully replied.

"Impossible!" Ye Xiwen clenched his teeth before that girl of Fallen Angel Clan, and replied. He would never be very submissive even if he came across a Great Sage. He would simply escape if he wanted to... However, he hadn't anticipated this situation, and had gotten trapped as result.

"I can help you in making a breakthrough into the Great Sage realm if you promise me!" that girl of Fallen Angel Clan said in a tempting manner, "However, don't blame me for what happens if you won't promise. You've dared to peep on me while I was taking a bath. It's obviously a mortal crime. So, I'll send you to accompany those devil beasts who used to live on these mountains!"

That girl of Fallen Angel Clan opened her round eyes wide, and said ferociously. She was quite skilful in using the 'carrot and stick' policy.

Ye Xiwen became scared. [It's no wonder that I haven't heard the voice of any devil beast in these mountains. They must have fallen prey to this girl. I can totally imagine how pitiful it must've been for those devil beasts.]

"Don't even think about it!" Ye Xiwen clenched his teeth... He found this too much. It seemed from his appearance that he would rather die than submit. He secretly mobilized his entire Real Elemental Energy, and became ready to wake up the Star Colossus at any time for a life and death fight.

"How about... you become my pet for 1000 years?" That girl of

Fallen Angel Clan couldn't help but relent as she saw Ye Xiwen's determined attitude.

"Then, 800 years!"

Ye Xiwen still remained unmoved. He looked as if he wasn't afraid of dying.

"700 years!"

"600 years!"

"100 years!"

That girl of the Fallen Angel Clan was almost driven mad as she saw Ye Xiwen ignoring her. She wanted to bite him to death!

"Then, let's do it like this... You take me out of the devil world. I'll let you go so long as you take me to your human world!" That girl of Fallen Angel Clan opened her big and watery eyes, and looked at Ye Xiwen. It seemed as if she was somewhat pleading.

Ye Xiwen became somewhat soft-hearted. He also put away the thought of a life and death fight. He said, "Alright!"

"Great. Let's go and conquer the human world!" That girl of Fallen Angel Clan brandished her small hand. She had done so in an imposing manner that was quite similar to that of a generalissimo. However, her facial expression didn't give any vibes of valour whatsoever.

She waved her hand, and the spatial power that had frozen Ye Xiwen promptly dispersed. However, Ye Xiwen felt extremely depressed. [I've suffered a big loss at the hands of a little girl.]

"Be obedient!" That girl of Fallen Angel Clan narrowed her pair of beautiful big eyes. And, her eyes quickly transformed into a crescent moon as a result. "Just follow this Young Lady, and you'll enjoy treats!"

"This is for you. It's a reward!" That girl of Fallen Angel Clan casually threw a fist-sized devil core towards Ye Xiwen. It was a

very small devil core. However, it was faintly emitting the coercion of the Great Sage level. The fluctuations swept across swirling in the air.

"This is a devil core of Great Sage level?" Ye Xiwen was left dumbstruck. Suddenly, that devil core transformed into a black light, and flew towards him. He received it in his hand... He felt as if an ink cartridge was emitting magical power that was corroding his palm. The sound of burning of his palm echoed. He promptly used his divinities to wrap up his palm in order to avoid his palm from being corroded. After all, that would've been tragic.

The aura of this devil core was slightly impure. It might be possible that that devil beast had barely entered the Great Sage realm. However, it was clear that it had been an authentic Great Sage level devil beast.

"It belongs to a snake which had dared to sneak a peek at this Young Lady's beauty!" The girl of Fallen Angel Clan softly snorted. She didn't say anything further. However, the aftermath was quite obvious.

Ye Xiwen used his divine sense, and had a peek at the devil core which was in his hand. [It is indeed the devil core of a devil flood dragon that had already completed its transformation into a flood dragon. They also possess the dragons' obscene nature. So, the devil flood dragons are like sub-dragons. They want to capture every beautiful woman they see.]

[However, it had unfortunately bumped into an iron wall this time. No, this girl is an iron mountain. Anyone who kicks her will find the bones of their leg shattered.]

"Ye Xiwen, hurry up, and absorb it. This devil core is the devil core of a Wind and Thunder devil flood dragon. It contains the power of wind and thunder within. Your devil wings can thoroughly transform into the second layer of wind and thunder wings after you absorb it. Then, even this Fallen Angel won't be

able to stop you from escaping!" Ye Mo said excitedly.

Ye Xiwen's devil wings hadn't made a breakthrough since a long time. He had unceasingly tried to deduce and cultivate the second layer of wind and thunder since the time he had touched upon its threshold. However, he hadn't been able to make a big progress since there hadn't been enough wind and thunder power for him to absorb. Therefore, he could only mix the wind and thunder power into the first layer of his devil wings, and increase the speed of his devil wings... He couldn't condense the second layer of devil wings.

However, he might be able to do so if he absorbed this Great Sage level devil core. After that, his speed would increase countless times. Even this girl of Fallen Angel Clan wouldn't be able to stop him then.

That girl of Fallen Angel Clan was proudly waiting for Ye Xiwen's compliment. She waited a long time, but didn't hear Ye Xiwen's compliment. So, she became puzzled. But then, she saw that Ye Xiwen had already sat cross-legged on the ground, and had begun to absorb the power of wind and thunder from inside the devil core.

Consequently, she became depressed, and stamped her feet in dejection. She ferociously glanced at Ye Xiwen, and then went to the other side whilst sulking.

Ye Xiwen didn't know how depressed that girl of Fallen Angel Clan was. After all, he had wholeheartedly immersed himself into absorbing the wind and thunder power. He couldn't afford to lose his concentration now. However, this didn't mean that he wasn't wary of that girl. Ye Mo was secretly keeping watch for him. Furthermore, that girl wouldn't have waited till now if she wanted to kill him.

The wind and thunder power had enormous might. But, they were also very hard to control. An ordinary person who had gotten hold of even one of the two powers would emerge as an overlord in

the same realm. So, one could well-imagine the tyranny of someone who had mastered both the powers of wind and thunder.

# Chapter 610: Wind and Thunder Wings; Completed!

---

The wind and thunder power must be mastered at the same time. Their essences should be in equilibrium. However, how could it be a simple thing to keep these two violent powers in equilibrium? Fortunately, Ye Xiwen had the experience of doing so in the past. He had extracted a certain amount of wind and thunder power in the past.

Moreover, the wind and thunder powers present inside the devil core of that wind and thunder devil flood dragon had already been equilibrium. After all, the wind and thunder devil flood dragon would've exploded and died if that wasn't the case.

Therefore, Ye Xiwen was very careful when he was absorbing the wind and thunder power.

He was also operating the cultivation technique of his devil wings at this time; a pair of black wings had congealed behind his body.

That girl of the Fallen Angel Clan looked at Ye Xiwen in a somewhat baffled manner. The devil energy on his wings wasn't just pure. In fact, it was countless times purer than the devil energy present on the wings of those devil experts.

[Is he truly a human?]

However, she had never seen any human. She had just seen the records of humans mentioned in some old books. Therefore, she didn't know whether this situation was normal or not.

The devil energy on Ye Xiwen's devil wings became thicker and thicker. The devil energy present in the surroundings poured into his devil wings like a river, and made his wings more and more visible. Every feather on his wings could be seen faintly emitting rays of light. It was a different feeling from the violent, negative, and extremely evil feeling that arose from the usual devil energy.

After all, that devil energy contained the negative Yin energy.

The devil energy present on Ye Xiwen's devil wings appeared to be the most upright and frank kind of Yin power. This had happened because Ye Xiwen had purified his divinities day after day.

The extreme of negative Yin is the positive Yang, and vice versa. Integration of both would lead to the formation of the power of primal chaos.

The power of wind and thunder was gradually being born on his devil wings. The wind and thunder power was in no hurry to occupy the entire wings. It just nibbled at the devil wings little by little. The second layer of the devil wings would be completely formed when the entire area of the devil wings would've been nibbled. And, Ye Xiwen's speed would increase enormously at that time.

Time passed day by day.

Ye Xiwen sat motionless in cross-legged position for three days' time. Simultaneously, he kept cultivating the second layer of his devil wings, and shaping the wind and thunder wings.

"Damned human... Stinky human!" That girl of the Fallen Angel Clan had gotten bored to death in this time period. She had been passing the time by kicking the stones on the ground. She had also continued to swear at Ye Xiwen.

"You've dared to make this Young Lady wait for so long. So, this Young Lady will punish you once you wake up!" the girl of the Fallen Angel Clan said whilst being annoyed.

"Crash-bang!"

A massive sound was heard; it seemed as if a thunderbolt had slammed down from the sky. Endless devil energy present in the surroundings crazily rushed towards Ye Xiwen from all directions.

Ye Xiwen's devil wings got covered by the wind and thunder

power. Then, the sound of wind and thunder echoed as his wings fluttered. He appeared like a god who was in-charge of the wind and thunder power.

"Ha ha ha ha... Done!" Ye Xiwen suddenly opened his eyes. He had finally condensed the second layer of the devil wings.

"Crash-bang!" another huge sound of wind and thunder resounded. The sound of explosion echoed in the world. And, boundless power began to vibrate everywhere. Suddenly, sand and stones began to swirl around Ye Xiwen.

"Whiz!" a shrill sound of breaking of space resounded. And, Ye Xiwen soared straight into the sky whilst being wrapped up in wind and thunder power. He disappeared inside the clouds in an instant.

"Come back human. Where are you going?" The girl of the Fallen Angel Clan reacted. She hadn't expected that Ye Xiwen's speed would increase to this extent after he had absorbed the devil core of the wind and thunder devil flood dragon.

Ye Xiwen's speed had been very fast earlier as well. However, it hadn't been faster than hers. After all, her realm was much higher than that of Ye Xiwen. On top of that, the Fallen Angel Clan were famous for their outstanding agility skill. So, who could've imagined that Ye Xiwen's speed would increase to this extent after he had cultivated the wind and thunder wings?

Ye Xiwen had flown dozens of miles away in an instant. And, a huge crack had been torn open inside the rolling devil clouds in the sky as a result. The devils who had been cultivating inside the devil clouds fell down when they bumped into such violent wind and thunder power.

"Ha ha ha ha ha ha ha ha..."

Ye Xiwen's cheerful and carefree laughter reverberated in the sky. He hadn't flown in such a carefree manner in a long time. It

seemed as if his speed had broken through the limits of wind.

A dozen or so senior devil experts had formed the encirclement at a distant place behind him. They could only see the wind and thunder power flashing across the sky. They just looked at it in a daze, and didn't dare to obstruct it. They wanted to stop it. However, they didn't have the strength to do so. In fact, they couldn't even track Ye Xiwen's movements clearly.

"What was that? Was that wind and thunder power? Was there a wind and thunder devil flood dragon present inside it?" a devil expert asked; he had become terrified. These devil experts were naturally arrogant. After all, each of them was almost about to enter the Great Sage realm. However, almost means 'almost'... They couldn't be compared with real Great Sages. They had received the information that the wind and thunder devil flood dragon had recently entered the Great Sage realm. However, it didn't mean that they could be placed on a par with it.

Especially, it was even more risky in case of devil beasts. After all, one would be devoured by those devil beasts just like a bloody meal if they didn't take care.

"This wind and thunder devil flood dragon has come out. Therefore, that boy must've been eaten by it. After all, how could that wind and thunder devil flood dragon not have known if someone had intruded?" a devil expert said.

"Right! I also think the same... That human is already dead. So, we don't need to stay here any further. It would be better if we go and join His Majesty in hunting those human experts. After all, those are the battlefields where we should be at. We shouldn't keep watch at this place like some guards!" a young devil expert said whilst being discontented.

Everyone looked towards the heaven's pride expert of the Asura Clan. After all, he held the leader's position in Mo Tian's absence. Therefore, he was the one who was most qualified to make a

decision.

The heaven's pride expert of the Asura Clan remained silent for a moment. Then, he said, "It doesn't make sense to stay here in that case. We must go. Moreover, he is just an insignificant expert of Sage Great Perfection realm. He would've died at our hands if he hadn't escaped quickly... He wouldn't have been able to cause so much trouble in that case!"

The devil experts let out a sigh of relief after they heard these words from the mouth of that heaven's pride expert of the Asura Clan. They were devil experts. So, they naturally had a ruthless attitude. However, it wasn't that they were without wisdom. They knew that that wind and thunder devil flood dragon might get unhappy and swallow all of them if they continued to wait here. They would have no place to go and cry in that case.

However, they didn't know that the legendary wind and thunder devil flood dragon had already gotten its skin peeled off because of its pervy intentions... And, even its devil core had been absorbed by someone.

Suddenly, these devil experts scattered like birds, and left to join Mo Tian.

Ye Xiwen flew in the sky for some time in an extremely carefree way.

Then, his figure came to a sudden halt in the sky.

"Ye Xiwen, this is a good opportunity. It's your best chance to escape!" Ye Mo said.

It seemed that the girl of the Fallen Angel Clan couldn't handle a matter properly. However, her strength was unfathomable. So, Ye Xiwen could only escape from her hands... He had no other way to deal with her.

Ye Xiwen remained silent for a while. Then, he replied, "No, I'll return. I've benefited from her. And, I just pat my butt and leave? I

can't do something so fu\*ked up!"

"I can at least take her to the human world as promised!"

The wind and thunder wings unfolded behind Ye Xiwen's body. They then suddenly fluttered, and transformed into wind and thunder power. Ye Xiwen then returned to the sky above the mountains. Then, he glanced around... Those devil experts who had been waiting in an ambush weren't there.

However, Ye Xiwen didn't care about that now. After all, his speed had become fast enough to get rid of these people. And, this had happened because the devil wings had made the breakthrough into the second layer. So, it was now impossible for them to catch up with him.

However, he still swept out his divine sense once. He didn't see them. [They have probably withdrawn.]

He then retracted his divine sense, and pondered why they had left. [I guess they must've thought that I've been devoured by the wind and thunder devil flood dragon in the mountains; and that's why they have left.]

He didn't bother about them after that. He folded his wind and thunder wings, and landed into the mountains... He then saw that that young girl of the Fallen Angel Clan was crying whilst holding her head in her hands.

"Damned human!"

"Stinky human!"

Ye Xiwen heard her complaints. She probably believed that he had escaped. Therefore, she had begun to cry.

Ye Xiwen was feeling somewhat helpless. [What vigor can one expect from a person who is crying? Shouldn't she be raining curses on me at this time?]

[Women are truly made up of water. It doesn't matter which race

they belong to. They are all the same.]

"Don't cry... Someone might think that I'm bullying you if they saw you crying!" Ye Xiwen said.

"Eh, you didn't run away!" The face of that young girl of the Fallen Angel Clan bloomed as she raised her head. She looked pleasantly surprised after she saw that Ye Xiwen had returned. "Yes, you're bullying me. You had said that you would take me to the human world. But, you didn't keep your promise!"

"I didn't say that I'm going!" Ye Xiwen helplessly replied. [How has this little girl managed to cultivate to the Great Sage realm? How could a naive person like her have walked on the martial arts road?]

[This is illogical!]

[Perhaps, what Ye Mo says is true... Some races are blessed by heaven. It's not clear how much better they are from humans since their birth. It can be said that the people of some races can cultivate till the Great Sage realm with passing time without facing any obstruction.]

Ye Xiwen remembered how many fights he had experienced as he thought of this... how many times he had made a narrow escape before he had finally reached till here. He couldn't help but be deeply moved. [This world is fu\*king unfair. I'm just hovering around the threshold of the Great Sage realm even after I've put all my efforts. On the other hand, this little girl has already reached the Great Sage realm.]

"Can't I go out to catch some fresh air?" Ye Xiwen made his case.

"Is it so?" That young girl of the Fallen Angel Clan looked at Ye Xiwen with suspicion. She clearly wasn't much convinced with Ye Xiwen's explanation that he had gone out to catch some fresh air. After all, she had called him so many times, but he hadn't listened. However, she also couldn't explain why he had returned.

Ye Xiwen realized that the young girl of the Fallen Angel Clan had sniffed his lack of confidence. So, he hastily said, "Of course... You want to go to the human world, right? But, I can't take you there for the time being. That's because I've come to the Devil World for a competition!"

# Chapter 611: Who Are We Going to Deal With This Time?

---

"Mission? Well, I'll also go with you!" That girl of the Fallen Angel Clan became overjoyed. This sudden change in her mood left Ye Xiwen amazed.

"By the way... my name is Ye Xiwen. I haven't asked your name yet?" Ye Xiwen asked.

"Ah... My name is Ling Fei!" the girl of the Fallen Angel Clan replied.

"But, you can't do this. Everyone on my side is human. You look like this... So, people will recognize you!" Ye Xiwen frowned as he looked at that pair of gray wings at the back of Ling Fei's body. The Fallen Angels' appearance made it seem that there wasn't much difference between them and the humans. However, it was that pair of wings behind their bodies that made them appear different from humans. It might be possible that quite many people didn't know about the Fallen Angel Clan. However, it didn't mean that nobody knew about them. And, it would be very troublesome if anyone recognized her.

"This is simple... Check this out!" Ling Fei's delicate body shook. That pair of wings behind her body turned smaller and smaller... until they finally retracted into her body.

"Done... Let's go now!"

Ling Fei cheerful laughter reverberated inside the forest.

Endless clouds were rolling in the sky. It seemed as if they had been dyed in black. One couldn't see beyond even if their gaze penetrated deep inside the clouds. It was all black... There was no daylight. The majority of areas inside the Devil World were like this. It was said that there was a devil sun hanging in the sky right at the centre of the Devil World. And, this sun hadn't set for years!

It was the source of energy for everything in the Devil World.

A crackling sound was heard. The flames swallowed the woods, and a crisp sound was issued. The sound seemed louder and clearer in this dark night. The bursts of light smoke that rose from the burning woods flew towards the sky in spirals.

A burst of fragrance spread in the entire mountain forest. The fragrance of delicious food permeated the entire place, and spread far away. Fortunately, all the devil beasts had already been driven away from inside this mountain forest. Therefore, this fragrance didn't attract any devil beast.

Two washed and peeled rabbits were hanging on two twigs which had been placed above a bonfire.

The flesh of the rabbits gradually became golden as the flame roasted them. Drops of oil congealed into droplets, and fell into the fire. This ignited the flames further.

Ye Xiwen was roasting the rabbits by slowly turning the twigs. The fragrance in the air was becoming increasingly strong. He had been turning the branches for a long time now. However, it was simply nothing for him. It wouldn't matter to him even if he had to keep turning them until the end of time. It was very easy for him as long as he had this kind of patience.

On the other side, the girl of the Fallen Angel Clan had become impatient after having waited for a long time. She asked, "Can't we eat now?"

"It's almost done!" Ye Xiwen replied. He shot a glance at Ling Fei as he replied.

"It's not done yet? It looks well-cooked!" Ling Fei pointed towards the golden and oily external skin of those two rabbits.

"Not yet. It may look good on the outside. However, it hasn't roasted from inside yet!" Ye Xiwen's current perception was extremely keen. He knew whether the rabbits had cooked or not by

just having a glance at them.

"Ah... It's such a pain!" Ling Fei once again pouted her tender red lips, and complained.

"Getting impatient, are we?" Ye Xiwen said with a smile. He hadn't barbecued in the wild like this for a long time. This was because he didn't need to eat anything in order to replenish his energy due to his cultivation. After all, he could replenish his energy just by absorbing the 'spirit energies' from the environment.

Xiao Ya was sitting quietly on the side. She wasn't far from Ye Xiwen. She was watching Ye Xiwen and Ling Fei. It seemed as if there was nothing in this world that could faze her. She was calm and composed even in the Devil World.

Perhaps, it was because she had gone through so much by now that nothing could faze her anymore. She would only have a smile on her small face whenever she looked at Ye Xiwen.

Ten years had passed. However, she still looked the same as when Ye Xiwen had met her for the first time. There was no change at all. The only thing that had changed was her strength. She had entered the truth realm. In fact, she had already reached to the peak of the truth realm! She would soon enter the legendary realm.

This speed wasn't as fast as that of Pang Yang Bo and other such geniuses. However, Ye Xiwen felt that it was fast enough since Xiao Ya didn't have the support of a large amount of resources like Pang Yang Bo had. Xiao Ya had cultivated to this extent within a short time of ten years depending solely upon her ability. This was enough to make Ye Xiwen admire her.

Ling Fei felt quite bored. So, she walked over to Xiao Ya, and pinched her small face. It wouldn't be strange to say that Xiao Ya was shy in front of people apart from Ye Xiwen. In fact, she wouldn't get close to them. However, it was different in Ling Fei's case.

Xiao Ya was quiet in front of Ling Fei. However, Ye Xiwen felt that the fact that Xiao Ya was willing to let Ling Fei get close to her was still a big miracle.

Ye Xiwen asked Xiao Ya about this secretly. And, Xiao Ya had merely replied, "This Young Miss somehow makes me feel intimate!"

Ye Xiwen clearly knew that a child like Xiao Ya couldn't tell who was good towards her and who wasn't just by looking at them. But, she could tell it by instinctively feeling their intention. She could naturally see this more clearly as compared to an ordinary person.

A while passed... Ye Xiwen had finally cooked the rabbit meat. All three individuals ate heartily. Ye Xiwen and Xiao Ya just tasted. After all, the two ate one rabbit put-together. However, Ling Fei of the Fallen Angel Clan ate a rabbit alone. But, she still wasn't satisfied. She argued noisily, went to grab a few more rabbits, and asked Ye Xiwen to roast them for her.

"Whoosh!" A golden light cut through the vast sky... A talisman carrying a message broke through the layers of space, and fell into Ye Xiwen's hands.

"Come at once!"

There were only three words. However, Ye Xiwen saw the name written on the message... It was Bi Jing Wei.

Ye Xiwen still had a good opinion about Bi Jing Wei. Ye Xiwen had told him to send a summon-signal for him when they needed to act together. A few months had passed, and no message had arrived. So, Ye Xiwen had almost forgotten about that matter. However, it must be a big operation now that the message had finally arrived.

A burst of devil wind whistled in the mountains as Ye Xiwen swept past them. Ye Xiwen was flying in the sky as fast as lightning. Ling Fei was also flying beside him quite freely. She

didn't fall behind him. She would shout and complain from time to time. It seemed as if she had never flown in the sky before.

An outsider would believe that their speed was very fast. After all, their speed was as fast as lightning. However, these individuals weren't even flying at their top speed yet. Ye Xiwen hadn't revealed his devil wings, and Ling Fei had retracted her angel wings.

They were going to meet Bi Jing Wei and other humans. Therefore, the two individuals couldn't reveal anything related to the devil race. Otherwise, other people would find out, and that wouldn't be a good thing.

It must be mentioned that it seemed as if Ling Fei's persona had completely changed after she had retracted her devil wings and the devil energy on her body. In fact, she was giving off a pure and holy feeling now. She looked completely different from earlier.

Ye Xiwen could easily find the position of Bi Jing Wei and the others under the talisman's guidance; this was the same talisman which had carried the message.

Several months had passed. So, many experts had already penetrated deep into the Devil World. They had already scattered to faraway places... They were still on the periphery if one were to draw a parallel to the massive size of the Devil World. However, they had gone very far away in reality.

Ye Xiwen had to fly for three days and three nights before he came across Bi Jing Wei and the others in a sierra. Bi Jing Wei and the others had obtained some information about some beasts, and were exterminating them in these mountains.

The devil beasts present inside the Devil World were more ferocious than those demon beasts from their own world. The majority of them were in sage realm. So, a semi-sage expert couldn't separate from the group and act solo at this place.

These devil beasts were very powerful. However, Bi Jing Wei possessed tyrannical strength. A spear cut across the horizon just like a mountain. And, those devil beasts got swept away one after another wherever it went. Bi Jing Wei couldn't be stopped as long as he didn't come across a Great Sage expert.

However, this area could be regarded as a desolate zone of the Devil World. So, it wasn't probable for a Great Sage to appear here. Therefore, every big force would send their disciples here to temper whilst resting assured. Otherwise, a Great Sage expert was enough to make them vomit blood since the said-expert would kill their geniuses.

These disciples might not have great importance at present. However, they could grow and become the pillars of their big forces in the future. Therefore, it would be a very big loss for a force if they lost these disciples. In fact, it could be said that they would lose an entire generation of geniuses.

Ye Xiwen saw a very tyrannical devil beast of the late stage of half-step Great Sage realm roaring and attacking. It was the king of the countless devil beasts who lived in these mountains. However, it had now been forced into a disadvantageous position by Bi Jing Wei. Even a hundred devil beasts like it couldn't be a match for him. All of them would get killed by him.

Bi Jing Wei's dreadful strength was clearly visible from this. In fact, his points were higher than the countless experts of True Martial World who had arrived in the Devil World this time; he was in the ninth position. He hadn't obtained the first position. However, he had truly stood out among these hundred-thousand or so experts. He was ranked among the top 10 experts. So, his strength was self-evident.

Ye Xiwen couldn't be a match for the present Bi Jing Wei unless he summoned the Star Colossus's Avatar. It wasn't surprising that Bi Jing Wei had said that he wouldn't get an opportunity to participate in the next Devil World competition. After all, Ye

Xiwen could see that he was almost continuously suppressing his aura from rushing out of his body. In fact, he had reached a situation where he was about to enter the Great Sage realm.

"Brother Ye, you've arrived so soon. Ah! I don't know who this is!" Bi Jing Wei killed that devil beast of late stage of half-step Great Sage realm, and then came flying over to welcome them. However, he seemed a bit surprised. After all, he had sent that message only recently, but Ye Xiwen had already arrived. It was clear that Ye Xiwen's speed was very fast. It was in fact the same as what he had found out from the information he had received about Ye Xiwen.

He had obviously investigated about Ye Xiwen's background since he had invited him to join his group. It wasn't a difficult thing for him to find out Ye Xiwen's roots... This intelligence turned out to be true. Ye Xiwen indeed had an extremely powerful body. But, he also had another characteristic... His speed was extremely fast; not many could match his speed.

Having an incomparably tyrannical body was enough to rule the entire world. But, Ye Xiwen even had incredible speed.

"My name is Ling Fei!" Ling Fei didn't wait for Ye Xiwen to introduce her; a smile blossomed on her face as she replied. She was a bit excited to see Bi Jing Wei and such a large number of other disciples of the True Martial University. After all, it was the first time that she had seen so many humans gathered at one place. Therefore, it was hard for her to curb her excitement.

"Hello, Young Miss Ling Fei!" Bi Jing Wei replied.

"Brother Bi, who are we going to deal with?" Ye Xiwen jumped-in and asked. He didn't let Ling Fei speak any further. Otherwise, she might've messed things up if she had continued to speak.

# Chapter 612: I'll Help You if You Ask!

---

"Brother Bi, who are we going to deal with?"

The smile disappeared from Bi Jing Wei's face. He then replied, "We have to deal with Shou Kun of the Ten Thousand Beasts Villa!"

"You mean the Shou Kun who's presently at the 6th position on the merit list?" Ye Xiwen asked incredulously. 'Ten Thousand Beasts Villa' was a colossus force. However, it was neither located in the Central Region nor in the Southern Region... It was located in the far Western Region instead. They had been ruling the majority of Western Region for many years.

However, the True Martial University's disciples knew about the 'Ten Thousand Beasts Villa' because the conflict between the True Martial University and the Ten Thousand Beasts Villa wasn't just a day or two old.

In fact, one would find that the Ten Thousand Beasts Villa was a part of the True Martial University if they traced its roots. However, it was called Ten Thousand Beasts Hall back then. It was a subordinate wing of the True Martial University, and had an outstanding reputation inside the university.

It could be said that 70% to 80% of the battle-type spirit beasts of the True Martial University were nurtured by the Ten Thousand Beasts Hall back then. So, they had a pivotal position in the True Martial University.

However, the Lord of the Ten Thousand Beasts Hall was an ambitious person. He had carried most of the Ten Thousand Beasts Hall's experts far away to the Western Region, and had established the Ten Thousand Beasts Villa after the True Martial University had gradually declined. The Ten Thousand Beasts Villa had slowly developed with the passage of time. And, it had now become an illustrious force in the True Martial World.

The Ten Thousand Beasts Hall had suddenly declined in the university after these elites had left. Consequently, this top-notch force had suddenly fallen behind many others. It had gone from being an outstanding inheritance in the True Martial University... to an imitation of its past-self. It had simply become worthless. In fact, many disciples of the True Martial University might not even know that the Ten Thousand Beasts Hall had ever existed in the university.

The most authentic method of managing the beasts had also been taken away by the Ten Thousand Beasts Villa. Therefore, the remaining force had become a shell...

The disciples of the True Martial University hated the Ten Thousand Beasts Villa countless times more than the Xuan Yuan Palace Hall even though the latter had been opposing the True Martial University endlessly. Therefore, a battle of life or death was certain to break out between the True Martial University and the Ten Thousand Beasts Villa if they came across each other.

These were old grudges. However, there was a new enmity apart from these old grudges. After all, the Ten Thousand Beasts Villa had been trying to move southwards over the last few years. It wanted to expand its force in the entire Southern Region. The Ten Thousand Beasts Villa had split out from the True Martial University. So, it had many spies in the Southern Region. These spies had been lurking for hundreds... or more than thousand... or may be even more than ten-thousand years. But, they had remained silent the entire time. However, they had unceasingly launched attacks after the Ten Thousand Beasts Villa had decided to enter the Southern Region. And, this had given the True Martial University a headache. A major war had never taken place between the two sides. However, small skirmishes had been happening unceasingly between the core disciples of the sage realm.

[New enmity... plus old grudges... How could they not wish to kill each other?]

Ye Xiwen also got a headache when he thought of this. The True Martial University had many enemies. However, every current big force hadn't been a subordinate of the True Martial University back then. They had basically been rebels back in the day. In fact, there were a very few forces who had been sworn enemies of the True Martial University in those days.

This Shou Kun was undoubtedly the most outstanding disciple among all the disciples of the Ten Thousand Beasts Villa. He was the top-tier expert among all the core disciples. So, he was very famous in the True Martial World.

His fame was obviously very different from the kind that Ye Xiwen enjoyed. After all, Ye Xiwen was merely a new disciple at this time. He was indeed famous. However, people didn't care about him. After all, a large number of such people used to appear in every hundred years. However, an expert like Shou Kun was entirely different. He was a big personality whose name could shake an entire region. On top of that, he was about to enter the Great Sage realm...

He had managed to obtain the sixth position on the merit list. He had even surpassed Bi Jing Wei. So, his strength was evident from this aspect alone...

The ranking on the merit list didn't represent the ultimate ranking of strength. That was because some people were good at fighting alone, while others were expert in fighting in a group. These were two completely different concepts. However, anyone who had broken into top 20 positions or even top 50 positions must be a scary character standing at the peak of the late stage of half-step Great Sage realm. And, this also meant that they could enter the Great Sage realm at any time.

"Yeah, it's him!" Bi Jing Wei replied in a deep voice. A fierce glint flashed in his eyes. "This person is quite powerful. However, he's also very shameless... Plus, he ought to be stronger than me. After all, he had reached the peak of the late stage of half-step Great Sage

realm a thousand years ago!"

Ye Xiwen couldn't help but hold his breath as he heard this. [Reached the peak of the late stage of half-step Great Sage realm a thousand years ago?! Wouldn't he be the same as people like Mu Sheng Jie and Huang Wuji in terms of cultivation time?]

[However, Huang Wuji and Mu Sheng Jie had reached the Great Sage realm a thousand years ago. How is this guy still hovering over the late stage of half-step Great Sage realm? It doesn't make any sense.]

"He was one of the famous heaven's pride experts back then. It is said that his accumulation has already completed. However, he hasn't promoted to the Great Sage realm, and has stayed in this realm. It's not the first time or second time that he has participated in the Devil World Competition. He comes with an evil scheme for the disciples of our True Martial University every time. Many brilliant young disciples of our university have fallen at his hands. In fact, almost all our disciples had been killed by him one time!" Bi Jing Wei was brimming with murderous aura when he was speaking. "Our university has spies in their Ten Thousand Beasts Villa. And, those spies believe that this might be the last time that Shou Kun is participating in the Devil World Competition. He'll return to the closed-door training, and make the breakthrough into Great Sage realm after the end of the competition. He has excellent background. So, I'm afraid that he will make another breakthrough in quick succession. And, this means that he will reach an extremely profound level within the Great Sage realm if he were allowed to make this breakthrough. Then, I won't be able to deal with him even if I enter the Great Sage realm as well. Only Brother Huang Wuji or Brother Mu Sheng Jie might be able to deal with him after that happens!"

Ye Xiwen nodded. [That Shou Kun must've entered the late stage of half-step Great Sage realm a thousand years ago if this information is correct. How terrifying would it be if his

accumulation of thousand years burst out at once...? He'll be far above an average Great Sage even if he wouldn't be able to contend against people like Mu Sheng Jie and Huang Wuji.]

He finally understood why Bi Jing Wei was insisting on killing Shou Kun at this time. After all, Shou Kun's cultivation was extremely profound. So, an ordinary expert of late stage of half-step Great Sage realm might not be able to withstand even a single move from him. However, he was basically still in the half-step Great Sage realm. It was quite difficult to deal with him... However, it wasn't impossible.

However, the disparity between Shou Kun and Bi Jing Wei would increase very quickly once Shou Kun entered the Great Sage realm. After all, Shou Kun's accumulation was a thousand years ahead of Bi Jing Wei. It might not reflect at this time. However, it would manifest once he entered the Great Sage realm.

Therefore, Bi Jing Wei might not get another opportunity if he didn't launch an attack at this time.

Bi Jing Wei was a top-tier heaven's pride expert. However, Shou Kun wasn't any less talented. Moreover, he also had an accumulation of almost a thousand years. Therefore, Bi Jing Wei might not get another opportunity to take revenge in his entire lifetime... unless a miracle happened.

Ye Xiwen clearly knew that Bi Jing Wei was loyal and devoted to the university. Any person or force that opposed the university would become a thorn in Bi Jing Wei's eyes. And, he would wish to kill them with his own hands.

"He is slaughtering in big numbers since he is participating in the Devil World Competition for the last time. A news has recently arrived that more than five heavens' pride experts have met a violent deaths at his hands. All those experts had been among the Top 100 people on the merit list. It is said that his gaze is fixed on our True Martial University. Therefore, I have no choice but to

attack in advance. I must put him down before he poses any threat to the disciples of our university!" Bi Jing Wei coldly said. His strength hadn't been enough in the previous Devil World Competition. It hadn't been enough to cause any threat to Shou Kun. However, this was the first time that his strength had reached very close to that of Shou Kun. Moreover, it might also be his last opportunity. So, there was no way that he wouldn't give it everything he had.

Ye Xiwen's complexion also turned serious. [So this is the case... Then, it is necessary to launch an attack on Shou Kun and kill him in advance. Otherwise, it'll be a huge threat for the True Martial University's disciples.]

An ominous glint flickered in Ye Xiwen's eyes. [I'll even use the Star Colossus's Avatar if needed.]

"The Ten Thousand Beasts Villa excels in the method of controlling the beasts. Brother Bi, we have to first sweep away the devil beasts present in the vicinity. Otherwise, I'm afraid that Shou Kun will make use of these devil beasts!" Ye Xiwen said. The Ten Thousand Beasts Villa had split up from True Martial University's Ten Thousand Beasts Hall. It had already separated. However, the True Martial University's people were fully-aware of the various secret martial arts techniques of the Ten Thousand Beasts Hall.

The scariest one among their techniques was the method of controlling beasts. Therefore, it would be a big disaster if the enemy spotted the devil beasts, ominous beasts, and so on in the vicinity.

The enemy had already trained several spirit beasts for battle. Moreover, the other ominous beasts and devil beasts present in the surroundings could also be exploited by them. Those beasts wouldn't be as good as the spirit beasts they had raised and trained in-person. However, they still couldn't be underestimated.

Bi Jing Wei was wiping out those beasts in order to avoid any

mishap, and to reduce Shou Kun's fighting prowess.

Bi Jing Wei had been on expeditions for many years. So, it could be said that he was very experienced. Therefore, he must've thought about these things in advance.

Bi Jing Wei explained a few things to Ye Xiwen. Then, he once again joined his team which was wiping out the devil beasts. He even expanded the scope of slaughtering this time.

"What's wrong Ye Xiwen? Do you need me... your great master? I'll help you. How powerful can an expert of the late stage of half-step Great Sage realm be? I'll kill him in one slap!" Ling Fei brandished her small fist, and proudly looked at Ye Xiwen. It seemed from her appearance that she was trying to say – I'll help you if you need me!

Ye Xiwen's face turned dark. He was afraid that Ling Fei might refer to herself as his master in front of everyone. Ye Xiwen hadn't agreed to be her pet. However, Ling Fei would still address herself as his master from time to time.

She didn't have any evil intentions behind it. However, it made Ye Xiwen feel at a loss.

"I don't need your help!" Ye Xiwen shook his head. How could he possibly let Ling Fei fight in front of so many people?

He turned around, and joined Bi Jing Wei's group in wiping out those devil beasts.

Not even a day had passed when another familiar figure arrived with a group of people. It was none other than Gao Ling Xiu! She had disappeared for several months... However, she looked even more confident now since she'd had some experience in the Devil World.

# Chapter 613: Mission Exposed

---

"Sister Gao, I haven't seen you for the last few months. Your martial power has advanced very significantly. Congratulations!" Ye Xiwen cupped his hands in obeisance, and said. Gao Ling Xiu was still in the Sage Accomplished realm. It appeared that her realm hadn't changed. However, how could her recent progress be concealed from Ye Xiwen?

"Brother Ye hasn't come across a small change either. Congratulations to you as well!" Gao Ling Xiu replied with a smile. She could also see that Ye Xiwen had become even more powerful.

The experts who stood behind Gao Ling Xiu also looked at Ye Xiwen somewhat incredulously. After all, they hadn't expected that they would see him alive. Ye Xiwen had refused to join their group back then. And, many people had thought that he was overestimating his capabilities. In fact, they believed that he was courting death.

However, they saw that Ye Xiwen was alive and well. Moreover, he had clearly become more powerful. This obviously made them a bit depressed. [So, he has a hidden trump after all... It's no wonder that he's so haughty.]

"Sister Gao, I feel reassured in my heart since you've arrived!" Bi Jing Wei smiled and said.

Ye Xiwen was a bit surprised. [Bi Jing Wei has said these words as a courtesy. However, it is clear that he thinks highly of Gao Ling Xiu. In fact, it seems that he considers Gao Ling Xiu as his equal. He clearly isn't treating her like an ordinary sage expert...]

Ye Xiwen also looked at Gao Ling Xiu's rank on the merit list after he thought this... She had stormed into the Top 20 positions; she had obtained the 18th rank. She hadn't made it to the Top 10. However, everyone apart from her in the Top 100 ranking on the merit list was a peak expert of the late stage of half-step Great Sage

realm. It was clearly visible from this that she had tyrannical strength.

As for a nonentity like Ye Xiwen who was ranked among thousands... there was nothing to say.

"Brother Ye, who is this?" Gao Ling Xiu looked at Ling Fei; Ling Fei was beside Ye Xiwen. [We want to launch an ambush on Shou Kun this time. So, we must execute this matter secretly. After all, the consequences would be too dire if Shou Kun got even a sniff of it. He might bring a group of Ten Thousand Beasts Villa's people, and launch a surprise attack on us instead. There isn't any problem with people who are with Bi Jing Wei. Ye Xiwen is also trustworthy. Otherwise, Bi Jing Wei wouldn't have called him. However, who is this person beside him? She doesn't look to be from the True Martial University.]

"This is..." Ye Xiwen had a headache as to how to introduce Ling Fei. He knew Gao Ling Xiu's intention behind asking about Ling Fei... This operation was very confidential. So, not everyone could participate in it... However, Ye Xiwen had been invited. So, this proved that he was a reliable man in their opinion.

Therefore, Ye Xiwen had agreed without any hesitation when he had received the invitation. This was also a kind of affirmation that he wouldn't keep himself away from joining the core army of the True Martial University forever.

He already had a very bad relation with the Law Enforcement Hall. So, it was impossible for him to stay away from joining the main army of the university eternally. He would eventually integrate into them... just like he had fully integrated into the Hidden Star Peak now.

"I'm his... friend!" Ling Fei didn't give Ye Xiwen much time to think... She stepped forward on her own accord, and replied... Ye Xiwen could clearly see a smiling expression in Ling Fei's eyes. It was a rather complacent look. "My name is Ling Fei. I'm very

powerful!"

Ling Fei waved her small fist to show a sense of strength as she spoke. It seemed as if she wanted to show off her power.

However, it was clear that the result wasn't good. Other people didn't believe that Ling Fei was truly a powerful expert by looking at her. She had entered the devil world. So, she obviously wasn't a weakling. However, she didn't look capable enough in front of these elites.

Therefore, they didn't pay too much attention to her. She was Ye Xiwen's friend... So, there would surely be no problem. After all, they believed that Ye Xiwen wouldn't be this irresponsible with respect to this matter. He obviously wouldn't have brought along just anyone in confusion. He would have considered everything.

Ling Fei became anxious when she saw that nobody believed her. "I'm truly very powerful. Very, very powerful!"

"Okay, okay, everyone knows that you're very powerful!"

Ling Fei was planning to reveal her true strength to prove that her words weren't empty. But, Ye Xiwen couldn't stand by idly and watch... He promptly pulled her towards himself, and cracked a joke. [There would be no pressure on these people who are here on the mission if I let this little devil reveal her powers.]

"According to the news that I've obtained... Shou Kun will pass from here after a few days. We can attack and kill him at that time. I've also invited a member of the Heavenly Punishment Faction for this task!" Bi Jing Wei shot a glance at Ye Xiwen as he said. He felt a bit embarrassed. After all, everyone knew about the conflict between Ye Xiwen and the Law Enforcement Hall. Therefore, it was quite difficult to say that whether they would attack Ye Xiwen or not if they appeared.

However, it also wasn't that easy to launch a surprise attack on Shou Kun. An ordinary expert of the late stage of half-step Great

Sage realm couldn't match his fighting prowess. So, the Heavenly Punishment Faction's fighting prowess would have a very important role in this mission.

However, Bi Jing Wei had already invited Ye Xiwen before. Therefore, this had formed a huge contradiction.

"Brother Ye can leave if he feels inconvenienced!" Bi Jing Wei said. Bi Jing Wei would lose a little strength if Ye Xiwen left. However, he would lose a backbone if he lost the Heavenly Punishment Faction. He had calculated this thing. However, he believed that nothing was more important than the university. So, he wouldn't hesitate even if Ye Xiwen got offended as a result.

"I don't mind!" Ye Xiwen replied. He was very wary of the Heavenly Punishment Faction. However, they wouldn't be able to kill him even if they attacked. So, there was nothing to fear.

Bi Jing Wei let out a sigh of relief when he saw that Ye Xiwen wasn't bothered about it. He said, "Brother Ye is very broadminded. I want to thank you on behalf of all the disciples of the university!"

Ye Xiwen promptly replied, "It's nothing. Brother Bi needn't do so!"

Bi Jing Wei could lay down his own dignity for the university. So, what could Ye Xiwen complain about? Ye Xiwen could only put aside any grudges that he might have because of Bi Jing Wei's decision.

Meanwhile, Ye Xiwen suddenly became scared... Bursts of evil wind blew down from the sky! A giant claw of a beast fell from the sky to grab everyone.

"Oh no! Everyone pay attention... There's a danger!" Bi Jing Wei roared. Everyone else also saw that a giant claw was coming down towards them.

Bi Jing Wei had the highest martial power among the people

here... apart from Ling Fei. Divine beams immediately emitted from his hands, and curled everyone in. Then, he suddenly retreated a dozen miles along with everyone under his protection, and evaded the surprise attack of that giant claw.

"Rumble!" The giant claw smashed down on the ground where everyone had been standing a moment ago... A huge hole was formed, and the space exploded. The might of this claw made everyone terrified. It was hard to imagine.

"This is White Phoenix Demon Claw!" Bi Jing Wei's complexion became exceptionally ugly. "Shou Kun, come out for me!"

His mood immediately sank to the bottom. White Phoenix Demon Claw was the martial technique of the Ten Thousand Beasts Villa. There were certain records of this technique in the True Martial University. As per the rumors... A senior of the Ten Thousand Beasts Hall had created this technique back in time. He had comprehended this claw technique after he had accidentally gotten involved in a fight with a white phoenix. It was one of the secret techniques of the True Martial University. It wasn't passed on to outsiders. It was a very confidential technique.

There weren't many people in the present generation of the Ten Thousand Beast Villa who had obtained the inheritance of the White Phoenix Demon Claw. In fact, there no one besides Shou Kun who could have the skill to inherit it.

Bi Jing Wei had made thousands of plans in order to keep this mission a secret. However, it had gotten leaked in the end. In fact, it hadn't just leaked out... Shou Kun had launched a surprise attack in advance; and that too at a time when that member of the Heavenly Punishment Faction hadn't arrived...

Bi Jing Wei was obviously contemptuous towards Shou Kun's character. However, he had never denied his strength. He couldn't dare to say that he would win easily even if he and Gao Ling Xiu attacked him at the same time.

"Ha ha ha ha ha ha ha! It's very funny. Bi Jing Wei, I hadn't expected that you would dare to scheme against me!" A huge figure appeared in the sky; it was a hill-sized ferocious tiger. Its entire body was as white as snow, and a pair of wings were protruding out of its ribs. It was floating in the sky. Its four claws vigorously grabbed the sky of the Devil World, and ripped a huge crack in it. The crack wouldn't restore for a very long time. The scene was exceptionally dreadful!

A tall man was standing on the forehead of this giant spirit tiger; he looked to be in his thirties. He was dressed in flashy clothes. His square face was filled with a disdainful expression.

"Humph! You've dared to attack the disciples of our university?! You should've known that this day would come!" Bi Jing Wei snorted and replied.

"Someone like you thinks that he can kill me? Do you know who you're talking to?" That tall man was Shou Kun. He opened his round eyes wide. He looked a bit sinister. "I've heard that you are loyal and devoted to the True Martial University. But, you've dared to think of killing me this time?! You were a nonentity in the previous Devil World Competitions. You were just like an ant in front of me. But, you've dared to do this now?! It seems that you've grown audacious!"

Bi Jing Wei was ranked ninth on the merit list. However, Shou Kun didn't pay attention to him. Instead, he had treated him like an insignificant nonentity.

However, Bi Jing Wei had indeed been a nonentity when Shou Kun had become famous in the True Martial World. Only people like Huang Wuji and Mu Sheng Jie could be compared to him. He didn't pay attention to other people. What was Bi Jing Wei?

"You're too negligent. You've dared to come alone. You're just an expert of half-step Great Sage realm even though you've cultivated for many more years than me. Had you thought that you'd come

here and just walk away?" Bi Jing Wei calmly said. Everything had already been seen through. Their target had knocked on their door with the intention of looking for a fight. So, they might as well give it to him. There wasn't enough time to set up matrix formations, and there was very little assurance of their operation's success. However, it didn't mean that there was no chance at all.

"Humph. Who do you think you are? You're just an insignificant youth, and you dare to act presumptuously in front of me. I can eliminate you in one stroke!" Shou Kun snorted. He simply disregarded him. He didn't even pay attention to this group of people. They were in the same realm of the late stage of half-step Great Sage as he was. However, there was a difference of heaven and earth between their strength and his.

"Brother Shou can surely clean up these small fries alone. However, it would be better if we act quickly. I've heard that a member of the Heavenly Punishment Faction is also coming. He might arrive before we're done if we don't act quickly!" suddenly, another brash-sounding voice came from the sky.
